# SUBJECT INDEX

***Acarocybiopsis cubitaensis***
*Acarocybiopsis*, a new genus of synnematous hyphomycetes from Cuba 1032

***Achlya bisexualis***
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119

***Achlyopsis***
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591

***Acremonium***
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395

***Acremonium chrysogenum***
*MYCDIRE*, a dispersed repetitive DNA element in arbuscular mycorrhizal fungi 572

***Acremonium cucurbitacearum***
RAPD-PCR polymorphism and vegetative compatibility group variation in Spanish isolates of *Acremonium cucurbitacearum* 1173

***Acremonium persicinum***
Induction and carbon source control of extracellular β-glucosidase production in *Acremonium persicinum* 161
Intracellular and cell wall associated β-glucanases and β-glucosidases of *Acremonium persicinum* 1217

***Acrogenospora aphaerocephala***
Fungi on submerged wood from the River Coln, England 1561

**Adenyl cyclase**
The adenyl cyclase from dormant spores of *Phycomyces blakesleeanus* is a Type I-like enzyme 943

**Aeciospores**
Inoculation of known and potential alternate hosts with *Peridermium pini* and *Cronartium flaccidum* aeciospores 235
Morphological variation of *Peridermium pini* and *Cronartium flaccidum* aeciospores 677

**Aflatoxins**
Molecular genotype analysis of natural toxigenic and nontoxigenic isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 1485

***Agaricus bisporus***
Tyrosinase activity and isoform composition in separate tissues during development of *Agaricus bisporus* fruit bodies 413
Hydrophobins line air channels in fruiting bodies of *Schizophyllum commune* and *Agaricus bisporus* 635
Studies on the morphogenesis of *Agaricus bisporus*: the dilemma of normal versus abnormal fruit body development 1235
Transcriptional regulation of laccase and cellulase genes in the mycelium of *Agaricus bisporus* during fruit body development on a solid substrate 1557

***Agaricus subfloccosus***
Population and phylogenetic structure within the *Agaricus subfloccosus* complex 1515

***Aithaloderma***
Numerical taxonomy of the sooty moulds *Leptoxyphium*, *Caldariomyces* and *Aithaloderma* based on micromorphology and physiology 333

**Allelochemicals**
Metabolism of benzoxazolinone allelochemicals of *Zea mays* by *Fusarium subglutinans* 1529

***Amphisphaeria umbrina***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53

**Amphisphaeriaceae**
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53

**Amphisphaeriales**
Studies on Amphisphaeriales: The Cainiaceae 1621

***Amylostereum areolatum***
Somatic compatibility in *Amylostereum areolatum* and *A. chailletii* as a consequence of symbiosis with siricid woodwasps 817
Vegetative compatibility groups of *Amylostereum areolatum* and *A. chailletii* from Sweden and Lithuania 824

***Amylostereum chailletii***
Somatic compatibility in *Amylostereum areolatum* and *A. chailletii* as a consequence of symbiosis with siricid woodwasps 817
Vegetative compatibility groups of *Amylostereum areolatum* and *A. chailletii* from Sweden and Lithuania 824

**Anastomosis**
Microscopic observation of perfect hyphal fusion in *Rhizoctonia solani* 487

**Anastomosis groups**
Cell wall alterations in hypocotyls of bean seedlings protected from Rhizoctonia stem canker by a binucleate *Rhizoctonia* isolate 1035

***Aniptodera intermedia***
Eleven new intertidal fungi from *Nypa fruticans* 1409

***Aniptodera salsuginosa***
*Halosarpheia kandeliae* sp. nov. on intertidal bark of the mangrove tree *Kandelia candel* in Hong Kong 1500

***Annulatascus***
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81

***Annulatascus triseptatus***
Ultrastructural studies on the aquatic ascomycetes *Annulatascus velatisporus* and *A. triseptatus* sp. nov. 561

***Annulatascus velatisporus***
Ultrastructural studies on the aquatic ascomycetes *Annulatascus velatisporus* and *A. triseptatus* sp. nov. 561

***Anthostomella nypae***
Eleven new intertidal fungi from *Nypa fruticans* 1409

***Anthostomella nypensis***
Eleven new intertidal fungi from *Nypa fruticans* 1409

***Anthostomella nypicola***
Eleven new intertidal fungi from *Nypa fruticans* 1409

**Antibiotic activity**
Antibiotic effects of some aquatic hyphomycetes 111

**Antibiotics**
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179
Phytotoxicity of equisetin and *epi*-equisetin isolated from *Fusarium equiseti* and *F. pallidoroseum* 967

**Antifungal activity**
A modified AATCC 30-1993 method to test fungicide treated fabrics against dermatophytes 88
Fungitoxicity of oxine and copper oxinate: activity spectrum, development of resistance and synergy 1073
Fungitoxicity of oxine and copper oxinate: effects of pH, metals and chelating agents on activity 1085

**Antiviral agents**
Antibiotic effects of some aquatic hyphomycetes 111

***Antrodia***
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219

***Antrodia taxa***
*Antrodia taxa* sp. nov. and *Perenniporia celtis* sp. nov. in Taiwan 622

**Appressorium formation**
The effects of isothiocyanates on the growth of the entomopathogenic fungus *Metarhizium anisopliae* and its infection of the mustard beetle 974

**Aquatic fungi**
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019
Fungi on submerged wood from the River Coln, England 1561
*Massarina proprietunicata* sp. nov., from submerged wood in streams in Hong Kong 1575

**Aquatic hyphomycetes**
Antibiotic effects of some aquatic hyphomycetes 111
Infraspecific genetic diversity and substrate preference in the aquatic hyphomycete *Tetrachaetum elegans* 736
*Biflagellospora* (aero-aquatic hyphomycetes) from submerged wood in Thailand 908

***Arecophila***
Studies on Amphisphaeriales: The Cainiaceae 1621

***Armillaria borealis***
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

***Armillaria cepistipes***
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

***Armillaria gallica***
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

***Armillaria mellea***
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

***Armillaria ostoyae***
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

***Armillaria tabescens***
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

***Arthrobotrys hertziana***
*Arthrobotrys hertziana* sp. nov. from the Canary Islands 764

***Ascochyta sojicola***
*Phoma sojicola* comb. nov. and other hyaline-spored coelomycetes pathogenic on soybean 1065

***Ascomauritiana lignicola***
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938

**Ascomycete systematics**
Small subunit ribosomal RNA gene phylogeny of several loculo-ascomycetes and its taxonomic implications 153

***Ascotaiwania pallida***
Fungi on submerged wood from the River Coln, England 1561

**Ascus structure**
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
Observations on the biology and ultrastructure of the asci and ascospores of *Julella avicenniae* from Malaysia 865

***Aspergillus flavus***
Molecular genotype analysis of natural toxigenic and nontoxigenic isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 1485

***Aspergillus nidulans***
Isolation of nuclear migration mutants of *Aspergillus nidulans* using GFP expressing strains 961
Complementation cloning of salt tolerance determinants from the marine hyphomycete *Dendryphiella salina* in *Aspergillus nidulans* 1252

***Aspergillus niger***
Influence of nitrogen source on the solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by different oxalic and citric acid-producing fungi 473
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057

***Aspergillus ochraceus***
Osmotic and matric potential effects on growth, sclerotia and partitioning of polyols and sugars in colonies and spores of *Aspergillus ochraceus* 141

***Aspergillus parasiticus***
Molecular genotype analysis of natural toxigenic and nontoxigenic isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 1485

***Atrotorquata***
Studies on Amphisphaeriales: The Cainiaceae 1621

**Attachment**
The pycnidiospore of *Phyllosticta ampelicida*: surface properties involved in substratum attachment and germination 915

***Aureobasidium pullulans***
Comparative synthesis and hydrolytic degradation of poly (L-malate) by myxomycetes and fungi 513

***Austropeltum glareosum***
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131

**Axenic culture**
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
Strain differences in the mycelium of the ectomycorrhizal *Tuber borchii* 1524

***Basidiobolus***
Conidium germination in co-occurring *Conidiobolus* and *Basidiobolus* in relation to their ecology 1259

**Basidiocarp development**
Conventional histological stains selectively stain fruit body initials of basidiomyctes 315
Tyrosinase activity and isoform composition in separate tissues during development of *Agaricus bisporus* fruit bodies 413
The formation of spores by metamorphosed basidia in *Mycocalia* and *Scleroderma* 521
Hydrophobins line air channels in fruiting bodies of *Schizophyllum commune* and *Agaricus bisporus* 635
Properties of the blue light requirements for primordia initiation and basidocarp maturation in *Coprinus stercorarius* 779
Studies on the morphogenesis of *Agaricus bisporus*: the dilemma of normal versus abnormal fruit body development 1235
Transcriptional regulation of laccase and cellulase genes in the mycelium of *Agaricus bisporus* during fruit body development on a solid substrate 1557

**Basidiocarp production**
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482

**Basidium development**
Two types of basidia in *Urocystis hypoxis* and the implications for smut taxonomy 18

***Batcheloromyces leucospermi***
*Batcheloromyces* species occurring on Proteaceae in South Africa 1478

***Battarrea stevenii***
The autecology of *Battarrea stevenii* in ephemeral rivers of southwestern Africa 9

***Beauveria***
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395

**β-glucosidase**
Induction and carbon source control of extracellular β-glucosidase production in *Acremonium persicinum* 161

***Biflagellospora gracilis***
*Biflagellospora* (aero-aquatic hyphomycetes) from submerged wood in Thailand 908

***Biflagellospora japonica***
*Biflagellospora* (aero-aquatic hyphomycetes) from submerged wood in Thailand 908

***Biflagellospora papillata***
*Biflagellospora* (aero-aquatic hyphomycetes) from submerged wood in Thailand 908

***Biflagellospora siamensis***
*Biflagellospora* (aero-aquatic hyphomycetes) from submerged wood in Thailand 908

**Biological control**
The effect of crucifer epicuticular waxes and leaf extracts on the germination and virulence of *Metarhizium anisopliae* conidia 419
Vegetative compatibility in the entomopathogen *Verticillium lecanii* 833
Co-transformation of the sclerotial mycoparasite *Coniothyrium minitans* with hygromycin B resistance and β-glucuronidase markers 929
The effects of isothiocyanates on the growth of the entomopathogenic fungus *Metarhizium anisopliae* and its infection of the mustard beetle 974

Cell wall alterations in hypocotyls of bean seedlings protected from Rhizoctonia stem canker by a binucleate *Rhizoctonia* isolate 1035
Development of reliable molecular markers to detect non-pathogenic binucleate *Rhizoctonia* isolates (AG-G) using PCR 1165
G protein activators and cAMP promote mycoparasitic behaviour in *Trichoderma harzianum* 1637

**Bioremediation**
Conversion rates of five polycyclic aromatic hydrocarbons in liquid cultures of fifty-eight fungi and the concomitant production of oxidative enzymes 1009

***Blogiascospora***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53

**Blue-stain fungi**
Transformation of sapstaining fungi with hygromycin B resistance plasmids pAN7-1 and pCB1004 77

***Blumeria graminis***
Release and visualization of the extracellular matrix of conidia of *Blumeria graminis* 547

***Boletus chrysenteron***
Ectomycorrhizal community structure in a limed spruce forest 501

***Boletus edulis***
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403

***Botryosphaeria***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153

***Broomella montaniensis***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53

***Byssosphaeria schiedermayeriana***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423

***Cainia***
Studies on Amphisphaeriales: The Cainiaceae 1621

**Cainiaceae**
Studies on Amphisphaeriales: The Cainiaceae 1621

***Caldariomyces***
Numerical taxonomy of the sooty moulds *Leptoxyphium, Caldariomyces* and *Aithaloderma* based on micromorphology and physiology 333

***Camellia sinensis***
Variation in chemical composition and quality of tea (*Camellia sinensis*) with increasing blister blight (*Exobasidium vexans*) severity 1380

***Candida ernobii***
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542

***Candida karawaiwii***
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542

***Candida rhagii***
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542

***Candida tenuis***
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542

***Candida xestobii***
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542

***Cannonia australis***
*Cannonia* gen. nov., from palms in the Southern Hemisphere 1398

**Carbon nutrition**
Induction and carbon source control of extracellular β-glucosidase production in *Acremonium persicinum* 161
Effects of nutritional sources on growth of one non-pathogenic strain and four strains of *Fusarium oxysporum* pathogenic on tomato 1210
*Rhizomucor tauricus*: a questionable species of the genus 1318

***Caryospora putanium***
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938

***Cataractispora appendiculata***
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019

***Cataractispora aquatica***
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019

***Cataractispora bipolaris***
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019

***Cataractispora viscosa***
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019

**Cellulase**
Transcriptional regulation of laccase and cellulase genes in the mycelium of *Agaricus bisporus* during fruit body development on a solid substrate 1557

**Cellulase production**
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696

***Cenangium ferruginosum***
Mycobiota in symptomless needles of *Pinus mugo* ssp. *uncinata* 306

***Ceratocystis***
PCR-based identification and phylogeny of species of *Ceratocystis sensu stricto* 743
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616

***Ceratostoma australe***
*Cannonia* gen. nov., from palms in the Southern Hemisphere 1398

***Cercospora***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491

***Cercospora zeyrae***
*Pseudocercospora zeyheriae*, a new combination for *Cercospora zeyrae* 40

***Ceriophora***
Studies on Amphisphaeriales: The Cainiaceae 1621

***Ceriospora caudae-suis***
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81

***Ceriporiopsis microporus***
*Ceriporiopsis microporus* and *Tyromyces formosanus*, two new polypore species from Taiwan 674

***Cerrena meyenii***
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309

***Chaetosphaeria arecacensis***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423

***Chaetosphaeria callimorpha***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423

***Chaetosphaeria exima***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423

***Chaetosphaeria hongkongensis***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423

***Chaetosphaeria palmicola***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423

**Chlorate resistance**
Vegetative compatibility grouping in *Verticillium nigrescens* and *V. tricorpus* 65

***Choanephora cucurbitarum***
Azygospore formation following protoplast fusion in *Choanephora cucurbitarum* 684

***Cintractia cubensis***
New and poorly known smut fungi in Cuba 459

***Cintractia limitata***
The *Cintractia* pattern of teliospore germination 1071

***Cintractia mitchellii***
The *Cintractia* pattern of teliospore germination 1071

***Cintractia samanensis***
New and poorly known smut fungi in Cuba 459

***Cladonia bellidiflora***
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131

***Claviceps fusiformis***
*Claviceps* sp. PRL 1980 (ATCC 26245), 59 and Pepty 695/ch-I: their true story 1044

***Claviceps purpurea***
*Claviceps* sp. PRL 1980 (ATCC 26245), 59 and Pepty 695/ch-I: their true story 1044
Immunogold localization of an extracellular β-1,3-glucanase of the ergot fungus *Claviceps purpurea* during infection of rye 1103

***Claviceps sorghicola***
*Claviceps sorghicola* sp. nov., a destructive ergot pathogen of sorghum in Japan 1403

***Coemansia***
Mycoparasitism of *Coemansia* species 925

***Coemansia aciculifera***
*Coemansia* species from the rhizospheres of wheat and barley in the United Kingdom 896
***Coemansia scorpioidea***
*Coemansia* species from the rhizospheres of wheat and barley in the United Kingdom 896
***Coemansia spiralis***
*Coemansia* species from the rhizospheres of wheat and barley in the United Kingdom 896
***Coemansia thaxteri***
*Coemansia* species from the rhizospheres of wheat and barley in the United Kingdom 896
***Colletotrichum acutatum***
Morphological and molecular analysis of *Colletotrichum acutatum sensu lato* 275
Molecular characterization of *Colletotrichum* strains derived from strawberry 385
***Colletotrichum dematium***
Infection process of *Colletotrichum dematium* on cowpea stems 230
***Colletotrichum fragariae***
Molecular characterization of *Colletotrichum* strains derived from strawberry 385
***Colletotrichum gloeosporioides***
Molecular characterization of *Colletotrichum* strains derived from strawberry 385
***Colletotrichum lindemuthianum***
Ribosomal DNA polymorphism in *Colletotrichum lindemuthianum* 841
**Community structure**
Endophytic mycobiota of healthy twigs and the assemblage of species associated with twig lesions of *Eucalyptus globosus* and *E. grandis* in Uruguay 468
Ectomycorrhizal community structure in a limed spruce forest 501
Succession of microfungal communities on *Myrtus communis* leaf litter in a Sardinian Mediterranean maquis ecosystem 724
Early effects of prescribed fire on the structure of the ectomycorrhizal fungus community in a Sierra Nevada ponderosa pine forest 1353
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
**Compatibility types**
Vegetative compatibility grouping in *Verticillium nigrescens* and *V. tricorpus* 65
RAPD-PCR polymorphism and vegetative compatibility group variation in Spanish isolates of *Acremonium cucurbitacearum* 1173
Intraspecific comparisons of *Laetiporus sulphureus* isolates from broadleaf and coniferous trees in Europe 1245
**Complementation**
Morphological and molecular analysis of *Colletotrichum acutatum sensu lato* 275
Complementation cloning of salt tolerance determinants from the marine hyphomycete *Dendryphiella salina* in *Aspergillus nidulans* 1252
**Confocal laser scanning microscopy**
*In vivo* observations of the arbuscular mycorrhizal fungus *Glomus mosseae* in roots by confocal laser scanning microscopy 311
**Conidial germination**
The effect of crucifer epicuticular waxes and leaf extracts on the germination and virulence of *Metarhizium anisopliae* conidia 419
Effect of dew point temperature and conidium age on germination, germ tube growth and infection of maize and sorghum by *Peronosclerospora sorghi* 859
The germination of oil-formulated conidia of the insect pathogen, *Metarhizium anisopliae* 901
Conidium germination in co-occurring *Conidiobolus* and *Basidiobolus* in relation to their ecology 1259
Determination of *Coniothyrium minitans* conidial and germling lectin avidity by flow cytometry and digital microscopy 1533
***Conidiobolus***
Conidium germination in co-occurring *Conidiobolus* and *Basidiobolus* in relation to their ecology 1259
***Coniochaeta rhopalochaeta***
A new species of *Coniochaeta* with a key to the species known in Argentina 689
***Coniochaeta scatigena***
A new species of *Coniochaeta* with a key to the species known in Argentina 689
***Coniophora puteana***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
Investigation of the extracellular mucilaginous materials produced by some wood decay fungi 1453
***Coniothyrium minitans***
Co-transformation of the sclerotial mycoparasite *Coniothyrium minitans* with hygromycin B resistance and β-glucuronidase markers 929
Determination of *Coniothyrium minitans* conidial and germling lectin avidity by flow cytometry and digital microscopy 1533
**Copper oxinate**
Fungitoxicity of oxine and copper oxinate: activity spectrum, development of resistance and synergy 1073
Fungitoxicity of oxine and copper oxinate: effects of pH, metals and chelating agents on activity 1085
***Coprinus cinereus***
Conventional histological stains selectively stain fruit body initials of basidiomyctes 315
***Coprinus stercorarius***
Properties of the blue light requirements for primordia initiation and basidocarp maturation in *Coprinus stercorarius* 779
***Coriolus versicolor***
Investigation of the extracellular mucilaginous materials produced by some wood decay fungi 1453
***Crocicreas epifagicola***
Fungi on *Epifagus Crocicreas epifagicola* sp. nov., with comments on the generic names *Crocicreas* and *Cyathicula* 28
***Crocicreas gramineum***
Fungi on *Epifagus Crocicreas epifagicola* sp. nov., with comments on the generic names *Crocicreas* and *Cyathicula* 28
***Cronartium flaccidum***
Inoculation of known and potential alternate hosts with *Peridermium pini* and *Cronartium flaccidum* aeciospores 235
Morphological variation of *Peridermium pini* and *Cronartium flaccidum* aeciospores 677
***Cryptophiale***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423
***Cryptovalsa halosarceiicola***
A new species of *Cryptovalsa* from Mai Po mangrove in Hong Kong 1628
***Cryptovalsa suaedicola***
A new species of *Cryptovalsa* from Mai Po mangrove in Hong Kong 1628
***Cryptovalsa mangrovei***
A new species of *Cryptovalsa* from Mai Po mangrove in Hong Kong 1628
**Culture**
An integrated study of individualism in *Lentinula edodes* in nature and its implication for cultivation strategy 651
*In vitro* propagation and life cycle of the arbuscular mycorrhizal *Glomus etunicatum* 1549
***Cunninghamella bertholletiae***
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
***Cunninghamella blakesleeana***
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
***Cunninghamella elegans***
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
***Cunninghamella phaeospora***
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
***Cunninghamella polymorpha***
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
***Custingophora olivaceae***
Relatedness of *Custingophora olivaceae* to *Gondwanamyces* spp. from *Protea* spp. 497
***Cyathicula***
Fungi on *Epifagus Crocicreas epifagicola* sp. nov., with comments on the generic names *Crocicreas* and *Cyathicula* 28
***Cyclaneusma minus***
Mycobiota in symptomless needles of *Pinus mugo* ssp. *uncinata* 306
**Cyclosporin A**
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
***Cylindrocarpostylus gregarius***
*Cylindrocarpostylus*, a new genus based on a hyphomycete rediscovered from bark beetle galleries 1152

***Cylindrocladium gregarium***
*Cylindrocarpostylus*, a new genus based on a hyphomycete rediscovered from bark beetle galleries 1152
**Cytology**
A cytological and ultrastructural study on the maturation and germination of oospores of *Plasmopara viticola* from overwintering vine leaves 193
Intraspecific comparisons of *Laetiporus sulphureus* isolates from broadleaf and coniferous trees in Europe 1245
**Cytoplasmic changes**
Cytoplasmic migrations and vacuolation are associated with growth recovery in hyphae of *Saprolegnia*, and are dependent on the cytoskeleton 849
**Cytoskeleton**
Cytoplasmic migrations and vacuolation are associated with growth recovery in hyphae of *Saprolegnia*, and are dependent on the cytoskeleton 849
***Cytospora chrysosperma***
Endophytic mycobiota of healthy twigs and the assemblage of species associated with twig lesions of *Eucalyptus globosus* and *E. grandis* in Uruguay 468
**Decay fungi**
The macrofungi and decay of roofs thatched with water reed, *Phragmites australis* 1346
***Dendryphiella salina***
Complementation cloning of salt tolerance determinants from the marine hyphomycete *Dendryphiella salina* in *Aspergillus nidulans* 1252
**Dermatophyte fungi**
A modified AATCC 30-1993 method to test fungicide treated fabrics against dermatophytes 88
**Development**
The autecology of *Battarrea stevenii* in ephemeral rivers of southwestern Africa 9
Quantification of β-tubulin RNA expression during asymbiotic and symbiotic development of the arbuscular mycorrhizal fungus *Glomus mosseae* 360
Effect of xyloglucan and xyloglucanase activity on the development of the arbuscular mycorrhizal *Glomus mosseae* 882
**Diagnostic media**
Detection and estimation of conidial abundance of *Penicillium verrucosum* in soil by dilution plating on a selective and diagnostic agar medium (DYSG) 887
***Diasporangium***
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
***Dichomitus carvernulosus***
*Dichomitus* in Africa 1126
***Dichomitus citricremeus***
*Dichomitus* in Africa 1126
***Dichomitus delicatulus***
*Dichomitus* in Africa 1126
***Dichomitus kirkii***
*Dichomitus* in Africa 1126
***Dichomitus setulosus***
*Dichomitus* in Africa 1126
**Dictyostelids**
Protostelids, dictyostelids, and myxomycetes in the litter microhabitat of the Luquillo Experimental Forest, Puerto Rico 209
***Didymella***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
***Didymostilbe aurantiospora***
*Byssosphaeria*, *Chaetosphaeria*, *Niesslia* and *Ornatispora* gen. nov., from palms 1423
**Dieback**
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
**Dimorphism**
Ultrastructure of the dimorphic ascospores in *Mamillisphaeria dimorphospora* 1284
***Diplocladium gregarium***
*Cylindrocarpostylus*, a new genus based on a hyphomycete rediscovered from bark beetle galleries 1152
***Discostroma tosta***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
**Distribution**
An integrated study of individualism in *Lentinula edodes* in nature and its implication for cultivation strategy 651
**DNA**
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
**DNA fingerprinting**
Delineation of *Trichoderma harzianum* into two different genotypic groups by a highly robust fingerprinting method, UP-PCR, and UP-PCR product cross-hybridization 289
**DNA sequencing**
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
Molecular identification of *Hymenoscyphus* sp. from rhizoids of the leafy liverwort *Cephaloziella exiliflora* in Australia and Antarctica 286
*MYCDIRE*, a dispersed repetitive DNA element in arbuscular mycorrhizal fungi 572
Relationship of *Scedosporium prolificans* with *Petriella* confirmed by partial LSU rDNA sequences 1179
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185
***Drechmeria coniospora***
Infection-related surface proteins on conidia of the nematophagous fungus *Drechmeria coniospora* 249
**Dung fungi**
*Wawelia argentia* and *W. microspora*, two new species of xerophilous fungi on rabbit and hare dung in Britain 1604
**Ecology**
The autecology of *Battarrea stevenii* in ephemeral rivers of southwestern Africa 9
Protostelids, dictyostelids, and myxomycetes in the litter microhabitat of the Luquillo Experimental Forest, Puerto Rico 209
Proportion of needles colonized by one fungal species in coniferous litter: the dispersal hypothesis 353
Endophytic mycobiota of healthy twigs and the assemblage of species associated with twig lesions of *Eucalyptus globosus* and *E. grandis* in Uruguay 468
Conidium germination in co-occurring *Conidiobolus* and *Basidiobolus* in relation to their ecology 1259
The endophyte-host interaction: a balanced antagonism 1275
**Ectomycorrhizas**
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
Cloning and identification of symbiosis-regulated genes from the ectomycorrhizal *Laccaria bicolor* 168
Utilization of inorganic and organic nitrogen in pure cultures by saprotrophic and ectomycorrhizal fungi producing sporophores on urea-treated forest floor 811
Early effects of prescribed fire on the structure of the ectomycorrhizal fungus community in a Sierra Nevada ponderosa pine forest 1353
**Electron microscopy**
Ultrastructural studies on the aquatic ascomycetes *Annulatascus velatisporus* and *A. triseptatus* sp. nov. 561
**ELISA**
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403
Quantification of the effect of the hyperparasite *Trichoderma harzianum* on the saprotrophic growth dynamics of *Rhizoctonia solani* in compost using a monoclonal antibody-based ELISA 443
***Ellurema indica***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
***Elvingia***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Emericella indica***
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
***Emericella nidulans***
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
***Emericella quadrilineata***
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
***Emericella variecolor***
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
**Endophytes**
Mycobiota in symptomless needles of *Pinus mugo* ssp. *uncinata* 306
Genetic diversity in Finland of the birch endophyte *Gnomonia setacea* as determined by RAPD-PCR markers 328

Endophytic mycobiota of healthy twigs and the assemblage of species associated with twig lesions of *Eucalyptus globosus* and *E. grandis* in Uruguay 468
The endophyte-host interaction: a balanced antagonism 1275
Morphology and infectivity of fine endophyte in a mediterranean environment 1369
Phylogenetic relationships within and between *Epichloë* and *Neotyphodium* endophytes as estimated by AFLP markers and rDNA sequences 1593
**Entomogenous fungi**
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
The effect of crucifer epicuticular waxes and leaf extracts on the germination and virulence of *Metarhizium anisopliae* conidia 419
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542
Vegetative compatibility in the entomopathogen *Verticillium lecanii* 833
The germination of oil-formulated conidia of the insect pathogen, *Metarhizium anisopliae* 901
The effects of isothiocyanates on the growth of the entomopathogenic fungus *Metarhizium anisopliae* and its infection of the mustard beetle 974
*Cylindrocarpostylus*, a new genus based on a hyphomycete rediscovered from bark beetle galleries 1152
***Entyloma guaraniticum***
New and poorly known smut fungi in Cuba 459
**Enzymes**
Comparative synthesis and hydrolytic degradation of poly (L-malate) by myxomycetes and fungi 513
Conversion rates of five polycyclic aromatic hydrocarbons in liquid cultures of fifty-eight fungi and the concomitant production of oxidative enzymes 1009
***Epichloë***
Phylogenetic relationships within and between *Epichloë* and *Neotyphodium* endophytes as estimated by AFLP markers and rDNA sequences 1593
***Epidermophyton floccosum***
A modified AATCC 30-1993 method to test fungicide treated fabrics against dermatophytes 88
**Equisetin**
Phytotoxicity of equisetin and *epi*-equisetin isolated from *Fusarium equiseti* and *F. pallidoroseum* 967
**Ergot**
Immunogold localization of an extracellular β-1,3-glucanase of the ergot fungus *Claviceps purpurea* during infection of rye 1103
*Claviceps sorghicola* sp. nov., a destructive ergot pathogen of sorghum in Japan 1403
***Eruptio gaubae***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
**Esterase profiles**
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
***Esteya vermicola***
*Esteya*, a new nematophagous genus from Taiwan, attacking the pinewood nematode (*Bursaphelenchus xylophilus*) 242
***Eucalyptus***
Endophytic mycobiota of healthy twigs and the assemblage of species associated with twig lesions of *Eucalyptus globosus* and *E. grandis* in Uruguay 468
***Eutypa lata***
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Exobasidium vexans***
Variation in chemical composition and quality of tea (*Camellia sinensis*) with increasing blister blight (*Exobasidium vexans*) severity 1380
**Extracellular matrices**
Release and visualization of the extracellular matrix of conidia of *Blumeria graminis* 547
**Extracellular mucilage**
Investigation of the extracellular mucilaginous materials produced by some wood decay fungi 1453
**Fire**
Early effects of prescribed fire on the structure of the ectomycorrhizal fungus community in a Sierra Nevada ponderosa pine forest 1353
**Fish pathogens**
*Saprolegnia diclina* isolated from pond cultured red drum (*Sciaenops ocellatus*) in Hong Kong 701
**Fluorescent staining**
Assessment of the activity of filamentous fungi using Mag fura 757
***Fomitopsis spraguei***
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
***Fremitomyces mahe***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
***Fremitomyces punctatus***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
***Frigidispora colnensis***
Fungi on submerged wood from the River Coln, England 1561
**Fumonisins**
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
**Fungicide resistance**
Resistance of *Venturia inaequalis* to the sterol biosynthesis-inhibiting fungicide, penconazole 1157
**Fungicide sensitivity**
A modified AATCC 30-1993 method to test fungicide treated fabrics against dermatophytes 88
***Fusarium***
Transformation and tolerance of tellurite by filamentous fungi: accumulation, reduction, and volatilization 299
***Fusarium avenaceum***
The influence of substrate and temperature on the sporulation of *Fusarium avenaceum* and its virulence on marsh reed grass 1145
A resource-saving method for isolation of *Fusarium* and other fungi from individual soil particles 1545
***Fusarium chlamydosporum***
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
***Fusarium culmorum***
A resource-saving method for isolation of *Fusarium* and other fungi from individual soil particles 1545
***Fusarium equiseti***
Phytotoxicity of equisetin and *epi*-equisetin isolated from *Fusarium equiseti* and *F. pallidoroseum* 967
***Fusarium flocciferum***
Mycoparasitism of *Coemansia* species 925
***Fusarium moniliforme***
GUS transformation of the maize fungal endophyte *Fusarium moniliforme* 129
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
***Fusarium oxysporum***
RAPD-PCR, isozyme, rDNA RFLP and rDNA sequence analysis in identification of Finnish *Fusarium oxysporum* isolates 625
Mycelial development of *Fusarium oxysporum* in the vicinity of tomato roots 769
Effects of nutritional sources on growth of one non-pathogenic strain and four strains of *Fusarium oxysporum* pathogenic on tomato 1210
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
A resource-saving method for isolation of *Fusarium* and other fungi from individual soil particles 1545
***Fusarium pallidoroseum***
Phytotoxicity of equisetin and *epi*-equisetin isolated from *Fusarium equiseti* and *F. pallidoroseum* 967
***Fusarium proliferatum***
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
***Fusarium solani***
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
***Fusarium subglutinans***
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
Metabolism of benzoxazolinone allelochemicals of *Zea mays* by *Fusarium subglutinans* 1529
***Gaeumannomyces graminis***
Isolation and characterisation of *Gaeumannomyces graminis* var. *graminis* melanin mutants 99
DNA polymorphism and host range in the take-all fungus, *Gaeumannomyces graminis* 319
***Galerina bulliformis***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427

***Galerina eucalyptorum***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Galerina incrustata***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Ganoderma***
Taxonomy of *Ganoderma* from southern South America: subgenus *Ganoderma* 661
***Ganoderma amazonense***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma annulare***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma chilense***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma coffeatum***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma philippi***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma lipsiense***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma lobatum***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma testaceum***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
***Ganoderma tornatum***
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
**Gasteroid fungi**
*Gymnomyces dominguezii* sp. nov. from Spain 215
**GC-content**
Phenotypic and molecular characterization of species hybrids derived from the induced fusion of zoospores of *Phytophthora capsici* and *Phytophthora nicotianae* 1003
**Genetics**
GUS transformation of the maize fungal endophyte *Fusarium moniliforme* 129
Cloning and identification of symbiosis-regulated genes from the ectomycorrhizal *Laccaria bicolor* 168
Complementation cloning of salt tolerance determinants from the marine hyphomycete *Dendryphiella salina* in *Aspergillus nidulans* 1252
***Geniculosporum***
Mycobiota in symptomless needles of *Pinus mugo* ssp. *uncinata* 306
**Genotypes**
Delineation of *Trichoderma harzianum* into two different genotypic groups by a highly robust fingerprinting method, UP-PCR, and UP-PCR product cross-hybridization 289
**Genotypic variation**
Analysis of pathogenicity and genetic variation among *Phytophthora sojae* isolates using RAPD 173
Genetic diversity in Finland of the birch endophyte *Gnomonia setacea* as determined by RAPD-PCR markers 328
Infraspecific genetic diversity and substrate preference in the aquatic hyphomycete *Tetrachaetum elegans* 736
Intraspecific comparisons of *Laetiporus sulphureus* isolates from broadleaf and coniferous trees in Europe 1245
Molecular genotype analysis of natural toxigenic and nontoxigenic isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 1485
Genetic variability of *Phytophthora infestans* in Norway and Finland as revealed by mating type and fingerprint probe RG57 1609
***Gigaspora margarita***
Construction and characterization of genomic libraries of two endomycorrizal fungi: *Glomus versiforme* and *Gigaspora margarita* 955
***Glarea lozoyensis***
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179
***Gliocladium roseum***
Mycoparasitism of *Coemansia* species 925
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Glomus***
Simulated fire reduces the density of arbuscular mycorrhizal fungi at the soil surface 491
***Glomus etunicatum***
*In vitro* propagation and life cycle of the arbuscular mycorrhizal *Glomus etunicatum* 1549
***Glomus mosseae***
*In vivo* observations of the arbuscular mycorrhizal fungus *Glomus mosseae* in roots by confocal laser scanning microscopy 311
Quantification of β-tubulin RNA expression during asymbiotic and symbiotic development of the arbuscular mycorrhizal fungus *Glomus mosseae* 360
Effect of xyloglucan and xyloglucanase activity on the development of the arbuscular mycorrhizal *Glomus mosseae* 882
***Glomus tenue***
Morphology and infectivity of fine endophyte in a mediterranean environment 1369
***Glomus versiforme***
Construction and characterization of genomic libraries of two endomycorrizal fungi: *Glomus versiforme* and *Gigaspora margarita* 955
**Glucanases**
Immunogold localization of an extracellular β-1,3-glucanase of the ergot fungus *Claviceps purpurea* during infection of rye 1103
Intracellular and cell wall associated β-glucanases and β-glucosidases of *Acremonium persicinum* 1217
**Glucosidases**
Intracellular and cell wall associated β-glucanases and β-glucosidases of *Acremonium persicinum* 1217
***Gnomonia setacea***
Genetic diversity in Finland of the birch endophyte *Gnomonia setacea* as determined by RAPD-PCR markers 328
***Gondwanamyces***
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616
***Gondwanamyces proteae***
Relatedness of *Custingophora olivaceae* to *Gondwanamyces* spp. from *Protea* spp. 497
***Griphosphaerioma kansensis***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
**Growth**
Osmotic and matric potential effects on growth, sclerotia and partitioning of polyols and sugars in colonies and spores of *Aspergillus ochraceus* 141
***Guignardia***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
***Gymnomyces dominguezii***
*Gymnomyces dominguezii* sp. nov. from Spain 215
***Gymnopilus corticophilus***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Gymnopilus eucalyptorum***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Gymnopilus moabus***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Gymnopilus tasmanicus***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Gymnopilus tomentulosus***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Gymnopilus tyallus***
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
***Halosarpheia kandeliae***
*Halosarpheia kandeliae* sp. nov. on intertidal bark of the mangrove tree *Kandelia candel* in Hong Kong 1500
***Haplographium calophylli***
A re-examination of the vascular wilt pathogen of takamaka (*Calophyllum inophyllum*) 1588
**Heat**
Simulated fire reduces the density of arbuscular mycorrhizal fungi at the soil surface 491
***Hebeloma crustuliniforme***
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
***Hebeloma marginatulum***

Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
***Hebeloma polare***
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
***Hebeloma subsaponaceum***
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
***Helicorhoidion nypicola***
Eleven new intertidal fungi from *Nypa fruticans* 1409
***Herpotrichia nypicola***
Eleven new intertidal fungi from *Nypa fruticans* 1409
***Heterobasidion annosum***
Production and isozyme pattern of extracellular laccase in the S and P intersterility groups of the root pathogen *Heterobasidion annosum* 365
**Heterokaryosis**
Evidence for segregation of somatic incompatibility during hyphal tip subculture of *Rhizoctonia solani* AG 4 1323
**Histology**
Conventional histological stains selectively stain fruit body initials of basidiomycetes 315
**Host range**
Molecular identification of *Hymenoscyphus* sp. from rhizoids of the leafy liverwort *Cephaloziella exiliflora* in Australia and Antarctica 286
**Hybridization**
Hybridization in larch-alternating *Melampsora epitea* (*M. larici-epitea*) 1440
**Hybrids**
Phenotypic and molecular characterization of species hybrids derived from the induced fusion of zoospores of *Phytophthora capsici* and *Phytophthora nicotianae* 1003
**Hydrophobins**
Hydrophobins line air channels in fruiting bodies of *Schizophyllum commune* and *Agaricus bisporus* 635
***Hymenoscyphus ericae***
Molecular identification of *Hymenoscyphus* sp. from rhizoids of the leafy liverwort *Cephaloziella exiliflora* in Australia and Antarctica 286
*Hymenoscyphus ericae*: a new record from western Canada 1391
**Hyperparasitic fungi**
Quantification of the effect of the hyperparasite *Trichoderma harzianum* on the saprotrophic growth dynamics of *Rhizoctonia solani* in compost using a monoclonal antibody-based ELISA 443
**Hyphal morphology**
Isolation of nuclear migration mutants of *Aspergillus nidulans* using GFP expressing strains 961
**Hypogeal fungi**
*Macowanites messapicoides*, a hypogeous relative of *Russula messapica* 203
***Hypoxylon oceanicum***
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696

**Incompatability**
Microscopic observation of perfect hyphal fusion in *Rhizoctonia solani* 487
**Infection**
Infection process of *Colletotrichum dematium* on cowpea stems 230
Inoculation of known and potential alternate hosts with *Peridermium pini* and *Cronartium flaccidum* aeciospores 235
Infection-related surface proteins on conidia of the nematophagous fungus *Drechmeria coniospora* 249
Release and visualization of the extracellular matrix of conidia of *Blumeria graminis* 547
Effect of dew point temperature and conidium age on germination, germ tube growth and infection of maize and sorghum by *Peronosclerospora sorghi* 859
Immunogold localization of an extracellular β-1,3-glucanase of the ergot fungus *Claviceps purpurea* during infection of rye 1103
**Infectivity**
GUS transformation of the maize fungal endophyte *Fusarium moniliforme* 129
Metabolism of benzoxazolinone allelochemicals of *Zea mays* by *Fusarium subglutinans* 1529
**Insect association**
Somatic compatibility in *Amylostereum areolatum* and *A. chailletii* as a consequence of symbiosis with siricid woodwasps 817
**Interactions**
War in the world of lichens: parasitism and symbiosis as exemplified by lichens and lichenicolous fungi 641

***Irpex***
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
**Isoenzyme analysis**
Purification and characterisation of a prominent polygalacturonase isozyme produced by *Phomopsis cucurbitae* in decayed muskmelon fruit 21
Production and isozyme pattern of extracellular laccase in the S and P intersterility groups of the root pathogen *Heterobasidion annosum* 365
Molecular characterization of *Colletotrichum* strains derived from strawberry 385
Tyrosinase activity and isoform composition in separate tissues during development of *Agaricus bisporus* fruit bodies 413
RAPD-PCR, isozyme, rDNA RFLP and rDNA sequence analysis in identification of Finnish *Fusarium oxysporum* isolates 625
Taxonomy of *Ganoderma* from southern South America: subgenus *Ganoderma* 661
Evidence for somatic hybridization in nature in *Puccinia recondita* f.sp. *tritici*, the leaf rust pathogen of wheat 715
Molecular and biochemical evidence for manganese-dependent peroxidase activity in *Tylospora fibrillosa* 1098
RAPD marker and isozyme characterization of *Sphaeropsis sapinea* from diverse coniferous hosts and locations 1193
Diversity of *Phytophthora megakarya* in Central and West Africa revealed by isozyme and RAPD markers 1225
*Rhizomucor tauricus*: a questionable species of the genus 1318
**Isolation**
A resource-saving method for isolation of *Fusarium* and other fungi from individual soil particles 1545
***Julella avicenniae***
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696
Observations on the biology and ultrastructure of the asci and ascospores of *Julella avicenniae* from Malaysia 865
**Karyotypes**
Segregation of genotypically diverse progeny from self-fertilised haploids of the Chinese straw mushroom, *Volvariella volvacea* 1335
**Keys**
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
Reflections on *Menisporopsis*, with the addition of *M. multisetulata* sp. nov. from submerged wood in Hong Kong 148
New pathogenic *Phaeoramularia* spp. on forest plants 271
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
*Antrodia taxa* sp. nov. and *Perenniporia celtis* sp. nov. in Taiwan 622
Taxonomy of *Ganoderma* from southern South America: subgenus *Ganoderma* 661
A new species of *Coniochaeta* with a key to the species known in Argentina 689
*Arthrobotrys hertziana* sp. nov. from the Canary Islands 764
*Dichomitus* in Africa 1126
***Knoxdavesia***
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616
***Laccaria bicolor***
Cloning and identification of symbiosis-regulated genes from the ectomycorrhizal *Laccaria bicolor* 168
***Laccaria laccata***
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
**Laccase**
Production and isozyme pattern of extracellular laccase in the S and P intersterility groups of the root pathogen *Heterobasidion annosum* 365
Transcriptional regulation of laccase and cellulase genes in the mycelium of *Agaricus bisporus* during fruit body development on a solid substrate 1557
***Lactarius necator***
Ectomycorrhizal community structure in a limed spruce forest 501
***Laetiporus sulphureus***
Intraspecific comparisons of *Laetiporus sulphureus* isolates from broadleaf and coniferous trees in Europe 1245

***Lagenidium giganteum***
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119
**Leaf litter**
Succession of microfungal communities on *Myrtus communis* leaf litter in a Sardinian Mediterranean maquis ecosystem 724
**Leaf spot fungi**
*Phoma sojicola* comb. nov. and other hyaline-spored coelomycetes pathogenic on soybean 1065
**Lecanorales**
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185
**Lectins**
Determination of *Coniothyrium minitans* conidial and germling lectin avidity by flow cytometry and digital microscopy 1533
***Lentinula edodes***
An integrated study of individualism in *Lentinula edodes* in nature and its implication for cultivation strategy 651
***Lepteutypha***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
***Leptographium calophylli***
A re-examination of the vascular wilt pathogen of takamaka (*Calophyllum inophyllum*) 1588
***Leptolegnia chapmanii***
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119
**Leptolegniaceae**
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119
***Leptosphaeria leucadendri***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Leptosphaeria nodorum***
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
***Leptosphaeria nypicola***
Eleven new intertidal fungi from *Nypa fruticans* 1409
***Leptosphaerulina***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
***Leptoxyphium***
Numerical taxonomy of the sooty moulds *Leptoxyphium*, *Caldariomyces* and *Aithaloderma* based on micromorphology and physiology 333
**Lichenicolous fungi**
War in the world of lichens: parasitism and symbiosis as exemplified by lichens and lichenicolous fungi 641
**Lichens**
War in the world of lichens: parasitism and symbiosis as exemplified by lichens and lichenicolous fungi 641
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185
**Life cycles**
*In vitro* propagation and life cycle of the arbuscular mycorrhizal *Glomus etunicatum* 1549
**Light**
Properties of the blue light requirements for primordia initiation and basidocarp maturation in *Coprinus stercorarius* 779
**Lignicolous fungi**
Lignicolous freshwater Ascomycota from Thailand: *Micropeltopsis quinquecladiopsis* sp. nov. 729
**Lignin degradation**
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
***Lignincola laevis***
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696
***Lignincola nypae***
Eleven new intertidal fungi from *Nypa fruticans* 1409
**Literature review**
One stop mycology 116
One stop mycology 372
**Litter fungi**
Proportion of needles colonized by one fungal species in coniferous litter: the dispersal hypothesis 353
Variation in the responses of litter and phylloplane fungi to UV-B radiation (290–315 nm) 1469
***Lophodermium pinastri***
Mycobiota in symptomless needles of *Pinus mugo* ssp. *uncinata* 306
***Macowanites messapicoides***
*Macowanites messapicoides*, a hypogeous relative of *Russula messapica* 203
***Mamillisphaeria dimorphospora***
Ultrastructure of the dimorphic ascospores in *Mamillisphaeria dimorphospora* 1284
**Mangrove fungi**
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696
*Halosarpheia kandeliae* sp. nov. on intertidal bark of the mangrove tree *Kandelia candel* in Hong Kong 1500
A new species of *Cryptovalsa* from Mai Po mangrove in Hong Kong 1628
**Marine fungi**
Observations on the biology and ultrastructure of the asci and ascospores of *Julella avicenniae* from Malaysia 865
***Massarina proprietunicata***
*Massarina proprietunicata* sp. nov., from submerged wood in streams in Hong Kong 1575
**Mating reactions**
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
Azygospore formation following protoplast fusion in *Choanephora cucurbitarum* 684
Oogonia with multiple oospheres in *Phytophthora infestans* 1332
Genetic variability of *Phytophthora infestans* in Norway and Finland as revealed by mating type and fingerprint probe RG57 1609
***Medusoides argyrocodium***
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
***Megasporoporia***
*Dichomitus* in Africa 1126
***Melampsora epitea***
Pathogenicity to willow rust, *Melampsora epitea*, of the mycoparasite *Sphaerellopsis filum* from different sources 509
Hybridization in larch-alternating *Melampsora epitea* (*M. larici-epitea*) 1440
***Melampsora larici-epitea***
Hybridization in larch-alternating *Melampsora epitea* (*M. larici-epitea*) 1440
**Melanins**
Isolation and characterisation of *Gaeumannomyces graminis* var. *graminis* melanin mutants 99
***Melanospora longisetosa***
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938
***Melanospora pascuensis***
A new species of *Melanospora* from Easter Island 1305
***Meliola juddiana***
Phylogenetic relationships of *Meliola* and *Meliolina* inferred from nuclear small subunit rRNA sequences 1049
***Meliola niessleana***
Phylogenetic relationships of *Meliola* and *Meliolina* inferred from nuclear small subunit rRNA sequences 1049
***Meliolina sydowiana***
Phylogenetic relationships of *Meliola* and *Meliolina* inferred from nuclear small subunit rRNA sequences 1049
***Menisporopsis multisetulata***
Reflections on *Menisporopsis*, with the addition of *M. multisetulata* sp. nov. from submerged wood in Hong Kong 148
**Metal toxicity**
Fungitoxicity of oxine and copper oxinate: effects of pH, metals and chelating agents on activity 1085
***Metarhizium***
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
***Metarhizium anisopliae***
The effect of crucifer epicuticular waxes and leaf extracts on the germination and virulence of *Metarhizium anisopliae* conidia 419
The germination of oil-formulated conidia of the insect pathogen, *Metarhizium anisopliae* 901
The effects of isothiocyanates on the growth of the entomopathogenic fungus *Metarhizium anisopliae* and its infection of the mustard beetle 974

***Micropeltopsis quinquecladiopsis***
Lignicolous freshwater Ascomycota from Thailand: *Micropeltopsis quinquecladiopsis* sp. nov. 729
***Microthyrium antivarensis***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
**Mineral recycling**
Influence of nitrogen source on the solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by different oxalic and citric acid-producing fungi 473
**Mitochondrial RNA**
Cloning and identification of symbiosis-regulated genes from the ectomycorrhizal *Laccaria bicolor* 168
**Molecular biology**
Molecular characterization of *Colletotrichum* strains derived from strawberry 385
Molecular evidence supports *Phytophthora quercina* as a distinct species 799
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
Ribosomal DNA polymorphism in *Colletotrichum lindemuthianum* 841
Construction and characterization of genomic libraries of two endomycorrizal fungi: *Glomus versiforme* and *Gigaspora margarita* 955
Isolation of nuclear migration mutants of *Aspergillus nidulans* using GFP expressing strains 961
**Monoclonal antibodies**
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403
**Morphogenesis**
Studies on the morphogenesis of *Agaricus bisporus*: the dilemma of normal versus abnormal fruit body development 1235
**Morphology**
Morphological and molecular analysis of *Colletotrichum acutatum sensu lato* 275
Atypical interactions between *thn* and wild-type mycelia of *Schizophyllum commune* 1540
**Mutants**
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
Isolation and characterisation of *Gaeumannomyces graminis* var. *graminis* melanin mutants 99
**Mycelium development**
Mycelial development of *Fusarium oxysporum* in the vicinity of tomato roots 769
Atypical interactions between *thn* and wild-type mycelia of *Schizophyllum commune* 1540
***Mycocalia denudata***
The formation of spores by metamorphosed basidia in *Mycocalia* and *Scleroderma* 521
***Mycocentrospora***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
**Mycoparasites**
Pathogenicity to willow rust, *Melampsora epitea*, of the mycoparasite *Sphaerellopsis filum* from different sources 509
Mycoparasitism of *Coemansia* species 925
Co-transformation of the sclerotial mycoparasite *Coniothyrium minitans* with hygromycin B resistance and β-glucuronidase markers 929
G protein activators and cAMP promote mycoparasitic behaviour in *Trichoderma harzianum* 1637
**Mycorrhizal fungi**
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
Cloning and identification of symbiosis-regulated genes from the ectomycorrhizal *Laccaria bicolor* 168
*In vivo* observations of the arbuscular mycorrhizal fungus *Glomus mosseae* in roots by confocal laser scanning microscopy 311
Quantification of β-tubulin RNA expression during asymbiotic and symbiotic development of the arbuscular mycorrhizal fungus *Glomus mosseae* 360
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403
Simulated fire reduces the density of arbuscular mycorrhizal fungi at the soil surface 491
Ectomycorrhizal community structure in a limed spruce forest 501
*MYCDIRE*, a dispersed repetitive DNA element in arbuscular mycorrhizal fungi 572
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
Effect of xyloglucan and xyloglucanase activity on the development of the arbuscular mycorrhizal *Glomus mosseae* 882
*Scutellospora rubra*, a new arbuscular mycorrhizal species from Brazil 949
Construction and characterization of genomic libraries of two endomycorrizal fungi: *Glomus versiforme* and *Gigaspora margarita* 955
Growth characteristics, nitrogen uptake and enzyme activities of the nitrate-utilising ectomycorrhizal *Scleroderma verrucosum* 997
Potential verification of a host plant for the desert truffle *Terfezia pfeilii* by molecular methods 1270
Strain differences in the mycelium of the ectomycorrhizal *Tuber borchii* 1524
*In vitro* propagation and life cycle of the arbuscular mycorrhizal *Glomus etunicatum* 1549
Intra- and interspecific variation in patterns of organic and inorganic nitrogen utilization by three Australian *Pisolithus* species 1579
Glutathione dependent enzymes and antioxidant defences in truffles: organisms living in microaerobic environments 1643
**Mycorrhizas**
Morphology and infectivity of fine endophyte in a mediterranean environment 1369
*Hymenoscyphus ericae*: a new record from western Canada 1391
***Mycosphaerella aequatoriensis***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Mycosphaerella angophorae***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Mycosphaerella eugeniae***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Mycosphaerella metrosideri***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Mycosphaerella syzygii***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Mycosphaerella vexans***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
**Mycotoxins**
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
Molecular genotype analysis of natural toxigenic and nontoxigenic isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 1485
***Mycovellosiella psidii***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Myelosperma alata***
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
***Myelosperma tumidum***
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
**Myxomycetes**
Protostelids, dictyostelids, and myxomycetes in the litter microhabitat of the Luquillo Experimental Forest, Puerto Rico 209
**Nematode fungi**
*Esteya*, a new nematophagous genus from Taiwan, attacking the pinewood nematode (*Bursaphelenchus xylophilus*) 242
Infection-related surface proteins on conidia of the nematophagous fungus *Drechmeria coniospora* 249
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
*Arthrobotrys hertziana* sp. nov. from the Canary Islands 764
***Neobroomella ciliata***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
***Neophyllis melacarpa***
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131
***Neotyphodium***
Phylogenetic relationships within and between *Epichloë* and *Neotyphodium* endophytes as estimated by AFLP markers and rDNA sequences 1593
***Nera angliae***
Fungi on submerged wood from the River Coln, England 1561

**New combinations**
*Pseudocercospora zeyheriae*, a new combination for *Cercospora zeyrae* 40
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
Molecular evidence for the presence of *Ophiosphaerella narmari* n. comb., a cause of spring dead spot of Bermuda grass, in North America 981
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019
*Phoma sojicola* comb. nov. and other hyaline-spored coelomycetes pathogenic on soybean 1065
*Dichomitus* in Africa 1126
Studies in neotropical polypores. Some coloured resupinate *Perreniporia* species 1138
*Cylindrocarpostylus*, a new genus based on a hyphomycete rediscovered from bark beetle galleries 1152
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
*Cannonia* gen. nov., from palms in the Southern Hemisphere 1398
*Byssosphaeria*, *Chaetosphaeria*, *Niesslia* and *Ornatispora* gen. nov., from palms 1423
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
A re-examination of the vascular wilt pathogen of takamaka (*Calophyllum inophyllum*) 1588
**New families**
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
**New family**
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119
**New genera**
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179
*Esteya*, a new nematophagous genus from Taiwan, attacking the pinewood nematode (*Bursaphelenchus xylophilus*) 242
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
*Turturconchata*, a new genus of hyphomycetes from Taiwan 830
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019
*Acarocybiopsis*, a new genus of synnematous hyphomycetes from Cuba 1032
*Cylindrocarpostylus*, a new genus based on a hyphomycete rediscovered from bark beetle galleries 1152
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
*Cannonia* gen. nov., from palms in the Southern Hemisphere 1398
*Byssosphaeria*, *Chaetosphaeria*, *Niesslia* and *Ornatispora* gen. nov., from palms 1423
Fungi on submerged wood from the River Coln, England 1561
**New records**
*Hymenoscyphus ericae*: a new record from western Canada 1391
**New species**
Fungi on *Epifagus Crocicreas epifagicola* sp. nov., with comments on the generic names *Crocicreas* and *Cyathicula* 28
Two new species of *Phellinus* from Taiwan 50
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81
Reflections on *Menisporopsis*, with the addition of *M. multisetulata* sp. nov. from submerged wood in Hong Kong 148
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179
*Gymnomyces dominguezii* sp. nov. from Spain 215
*Esteya*, a new nematophagous genus from Taiwan, attacking the pinewood nematode (*Bursaphelenchus xylophilus*) 242
Further additions to *Stenella* from India and Nepal 268
New pathogenic *Phaeoramularia* spp. on forest plants 271
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
New and poorly known smut fungi in Cuba 459
Ultrastructural studies on the aquatic ascomycetes *Annulatascus velatisporus* and *A. triseptatus* sp. nov. 561
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
*Antrodia taxa* sp. nov. and *Perenniporia celtis* sp. nov. in Taiwan 622
*Ceriporiopsis microporus* and *Tyromyces formosanus*, two new polypore species from Taiwan 674
A new species of *Coniochaeta* with a key to the species known in Argentina 689
Lignicolous freshwater Ascomycota from Thailand: *Micropeltopsis quinquecladiopsis* sp. nov. 729
*Arthrobotrys hertziana* sp. nov. from the Canary Islands 764
*Phytophthora quercina* sp. nov., causing root rot of European oaks 785
*Turturconchata*, a new genus of hyphomycetes from Taiwan 830
*Biflagellospora* (aero-aquatic hyphomycetes) from submerged wood in Thailand 908
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938
*Scutellospora rubra*, a new arbuscular mycorrhizal species from Brazil 949
*Cataractispora* gen. nov. with three new freshwater lignicolous species 1019
*Acarocybiopsis*, a new genus of synnematous hyphomycetes from Cuba 1032
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
*Dichomitus* in Africa 1126
Studies in neotropical polypores. Some coloured resupinate *Perreniporia* species 1138
Some *Pseudocercospora* species and a new *Prathigada* species from the Brazilian cerrado 1203
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
A new species of *Melanospora* from Easter Island 1305
*Claviceps sorghicola* sp. nov., a destructive ergot pathogen of sorghum in Japan 1403
Eleven new intertidal fungi from *Nypa fruticans* 1409
*Byssosphaeria*, *Chaetosphaeria*, *Niesslia* and *Ornatispora* gen. nov., from palms 1423
*Batcheloromyces* species occurring on Proteaceae in South Africa 1478
*Halosarpheia kandeliae* sp. nov. on intertidal bark of the mangrove tree *Kandelia candel* in Hong Kong 1500
Fungi on submerged wood from the River Coln, England 1561
*Massarina proprietunicata* sp. nov., from submerged wood in streams in Hong Kong 1575
*Wavellia argentia* and *W. microspora*, two new species of xerophilous fungi on rabbit and hare dung in Britain 1604
A new species of *Cryptovalsa* from Mai Po mangrove in Hong Kong 1628
***Niesslia exosporioides***
*Byssosphaeria*, *Chaetosphaeria*, *Niesslia* and *Ornatispora* gen. nov., from palms 1423
***Niesslia palmicola***
*Byssosphaeria*, *Chaetosphaeria*, *Niesslia* and *Ornatispora* gen. nov., from palms 1423
**Nitrate utilization**
Growth characteristics, nitrogen uptake and enzyme activities of the nitrate-utilising ectomycorrhizal *Scleroderma verrucosum* 997
**Nitrogen metabolism**
Influence of nitrogen source on the solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by different oxalic and citric acid-producing fungi 473
Utilization of inorganic and organic nitrogen in pure cultures by saprotrophic and ectomycorrhizal fungi producing sporophores on urea-treated forest floor 811
Growth characteristics, nitrogen uptake and enzyme activities of the nitrate-utilising ectomycorrhizal *Scleroderma verrucosum* 997
Intra- and interspecific variation in patterns of organic and inorganic nitrogen utilization by three Australian *Pisolithus* species 1579
**Nitrogen nutrition**
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707

**Nuclear behaviour**
Isolation of nuclear migration mutants of *Aspergillus nidulans* using GFP expressing strains 961
**Numerical taxonomy**
Numerical taxonomy of the sooty moulds *Leptoxyphium, Caldariomyces* and *Aithaloderma* based on micromorphology and physiology 333
***Oligoporus***
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
**Oospore formation**
Oogonia with multiple oospheres in *Phytophthora infestans* 1332
**Oospore germination**
A cytological and ultrastructural study on the maturation and germination of oospores of *Plasmopara viticola* from overwintering vine leaves 193
***Ophiosphaerella herpotricha***
Molecular evidence for the presence of *Ophiosphaerella narmari* n. comb., a cause of spring dead spot of Bermuda grass, in North America 981
***Ophiosphaerella korrae***
Molecular evidence for the presence of *Ophiosphaerella narmari* n. comb., a cause of spring dead spot of Bermuda grass, in North America 981
***Ophiosphaerella narmari***
Molecular evidence for the presence of *Ophiosphaerella narmari* n. comb., a cause of spring dead spot of Bermuda grass, in North America 981
***Ophiostoma***
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616
***Ophiostoma piceae***
Transformation of sapstaining fungi with hygromycin B resistance plasmids pAN7-1 and pCB1004 77
***Ophiostoma quercus***
Transformation of sapstaining fungi with hygromycin B resistance plasmids pAN7-1 and pCB1004 77
***Ornatispora***
*Byssosphaeria, Chaetosphaeria, Niesslia* and *Ornatispora* gen. nov., from palms 1423
**Osmoregulation**
Complementation cloning of salt tolerance determinants from the marine hyphomycete *Dendryphiella salina* in *Aspergillus nidulans* 1252
**Osmotic potential**
Osmotic and matric potential effects on growth, sclerotia and partitioning of polyols and sugars in colonies and spores of *Aspergillus ochraceus* 141
**Oxine**
Fungitoxicity of oxine and copper oxinate: activity spectrum, development of resistance and synergy 1073
Fungitoxicity of oxine and copper oxinate: effects of pH, metals and chelating agents on activity 1085
**Oxygen toxicity**
Glutathione dependent enzymes and antioxidant defences in truffles: organisms living in microaerobic environments 1643
***Paecilomyces***
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
***Paracainella***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
***Paracercospora***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
**Parmeliaceae**
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185
***Passalora***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
***Passalora eugeniae***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
**Pathogenesis**
*Pyrenophora teres* f. *maculata*, the cause of Pyrenophora leaf spot of barley in South Africa 257
Relationship of *Scedosporium prolificans* with *Petriella* confirmed by partial LSU rDNA sequences 1179
RAPD marker and isozyme characterization of *Sphaeropsis sapinea* from diverse coniferous hosts and locations 1193
Effects of nutritional sources on growth of one non-pathogenic strain and four strains of *Fusarium oxysporum* pathogenic on tomato 1210
**Pathogenicity**
Polymerase chain reaction-based assay for specific detection of *Rhizoctonia solani* AG-3 isolates 1
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
Analysis of pathogenicity and genetic variation among *Phytophthora sojae* isolates using RAPD 173
Infection process of *Colletotrichum dematium* on cowpea stems 230
Morphological and molecular analysis of *Colletotrichum acutatum sensu lato* 275
Stereological analysis of celery leaves infected by *Septoria apiicola* 750
Mycelial development of *Fusarium oxysporum* in the vicinity of tomato roots 769
*Phytophthora quercina* sp. nov., causing root rot of European oaks 785
*Phoma sojicola* comb. nov. and other hyaline-spored coelomycetes pathogenic on soybean 1065
Development of reliable molecular markers to detect non-pathogenic binucleate *Rhizoctonia* isolates (AG-G) using PCR 1165
RAPD-PCR polymorphism and vegetative compatibility group variation in Spanish isolates of *Acremonium cucurbitacearum* 1173
Diversity of *Phytophthora megakarya* in Central and West Africa revealed by isozyme and RAPD markers 1225
Determination of *Coniothyrium minitans* conidial and germling lectin avidity by flow cytometry and digital microscopy 1533
***Paxillus involutus***
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
Influence of nitrogen source on the solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by different oxalic and citric acid-producing fungi 473
***Penicillium***
Phylogenetic analysis of nucleotide sequences from the ITS region of terverticillate *Penicillium* species 873
***Penicillium atrosanguineum***
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
***Penicillium bilaii***
Influence of nitrogen source on the solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by different oxalic and citric acid-producing fungi 473
***Penicillium chraszczii***
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
***Penicillium citrinum***
Transformation and tolerance of tellurite by filamentous fungi: accumulation, reduction, and volatilization 299
***Penicillium manginii***
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
***Penicillium miczynskii***
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
***Penicillium simplicissimum***
Influence of nitrogen source on the solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by different oxalic and citric acid-producing fungi 473
***Penicillium soppii***
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
***Penicillium syriacum***
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
***Penicillium verrucosum***
Detection and estimation of conidial abundance of *Penicillium verrucosum* in soil by dilution plating on a selective and diagnostic agar medium (DYSG) 887
***Perenniporia aurantiaca***
Studies in neotropical polypores. Some coloured resupinate *Perreniporia* species 1138
***Perenniporia celtis***
*Antrodia taxa* sp. nov. and *Perenniporia celtis* sp. nov. in Taiwan 622
***Perenniporia chromatica***
Studies in neotropical polypores. Some coloured resupinate *Perreniporia* species 1138
***Perenniporia isabellina***
Studies in neotropical polypores. Some coloured resupinate *Perreniporia* species 1138
***Perenniporia xantha***
Studies in neotropical polypores. Some coloured resupinate *Perreniporia* species 1138

***Peridermium pini***
Inoculation of known and potential alternate hosts with *Peridermium pini* and *Cronartium flaccidum* aeciospores 235
Morphological variation of *Peridermium pini* and *Cronartium flaccidum* aeciospores 677
***Peronosclerospora sorghi***
Effect of dew point temperature and conidium age on germination, germ tube growth and infection of maize and sorghum by *Peronosclerospora sorghi* 859
**Peroxidase**
Molecular and biochemical evidence for manganese-dependent peroxidase activity in *Tylospora fibrillosa* 1098
***Pestalosphaeria***
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
***Petriella***
Relationship of *Scedosporium prolificans* with *Petriella* confirmed by partial LSU rDNA sequences 1179
**pH**
Fungitoxicity of oxine and copper oxinate: effects of pH, metals and chelating agents on activity 1085
***Phaeoacremonium aleophilum***
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Phaeoacremonium chlamydosporum***
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Phaeophleospora abyssinicae***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Phaeophleospora congestum***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Phaeophleospora protearum***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Phaeoramularia bauhiniae***
New pathogenic *Phaeoramularia* spp. on forest plants 271
***Phaeoramularia marsdeniae***
New pathogenic *Phaeoramularia* spp. on forest plants 271
***Phaeoramularia tephrosiicola***
New pathogenic *Phaeoramularia* spp. on forest plants 271
***Phaeosphaeria nodorum***
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
***Phaeotrametes decipiens***
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
***Phanerochaete***
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
***Phanerochaete chrysosporum***
Molecular and biochemical evidence for manganese-dependent peroxidase activity in *Tylospora fibrillosa* 1098
***Phellinus contiguus***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phellinus ferruginosus***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phellinus formosanus***
Two new species of *Phellinus* from Taiwan 50
***Phellinus ignarius***
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Phellinus igniarius***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phellinus occidentalis***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phellinus pini***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phellinus pomaceus***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phellinus prunicola***
Two new species of *Phellinus* from Taiwan 50
***Phlebia***
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
***Phlebiopsis***
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
***Phoma sojicola***
*Phoma sojicola* comb. nov. and other hyaline-spored coelomycetes pathogenic on soybean 1065
***Phomatospora nypicola***
Eleven new intertidal fungi from *Nypa fruticans* 1409
***Phomopsis cucurbitae***
Purification and characterisation of a prominent polygalacturonase isozyme produced by *Phomopsis cucurbitae* in decayed muskmelon fruit 21
***Phomopsis viticola***
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Phragmites australis***
The macrofungi and decay of roofs thatched with water reed, *Phragmites australis* 1346
***Phycomyces blakesleeanus***
The adenyl cyclase from dormant spores of *Phycomyces blakesleeanus* is a Type I-like enzyme 943
***Phyllachora erythroxylina***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
***Phyllachora occultans***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
***Phyllachora reticulata***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
***Phyllachora tanensis***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
***Phyllachora usteriana***
Biotrophic species of Phyllachoraceae associated with the angiosperm family Erythroxylaceae 577
**Phylloplane fungi**
Variation in the responses of litter and phylloplane fungi to UV-B radiation (290–315 nm) 1469
***Phylloporia ribis***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
***Phyllosticta***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Phyllosticta ampelicida***
The pycnidiospore of *Phyllosticta ampelicida*: surface properties involved in substratum attachment and germination 915
**Phylogeny**
Small subunit ribosomal RNA gene phylogeny of several loculo-ascomycetes and its taxonomic implications 153
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542
PCR-based identification and phylogeny of species of *Ceratocystis sensu stricto* 743
Phylogenetic analysis of nucleotide sequences from the ITS region of terverticillate *Penicillium* species 873
Phylogenetic relationships of *Meliola* and *Meliolina* inferred from nuclear small subunit rRNA sequences 1049
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185

Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
Population and phylogenetic structure within the *Agaricus subfloccosus* complex 1515
Phylogenetic relationships within and between *Epichloë* and *Neotyphodium* endophytes as estimated by AFLP markers and rDNA sequences 1593
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616
Studies on Amphisphaeriales: The Cainiaceae 1621

***Physarum polycephalum***
Comparative synthesis and hydrolytic degradation of poly (L-malate) by myxomycetes and fungi 513

**Physiological specialization**
Glutathione dependent enzymes and antioxidant defences in truffles: organisms living in microaerobic environments 1643

***Phytophthora capsici***
Phenotypic and molecular characterization of species hybrids derived from the induced fusion of zoospores of *Phytophthora capsici* and *Phytophthora nicotianae* 1003

***Phytophthora infestans***
Oogonia with multiple oospheres in *Phytophthora infestans* 1332
Genetic variability of *Phytophthora infestans* in Norway and Finland as revealed by mating type and fingerprint probe RG57 1609

***Phytophthora megakarya***
Diversity of *Phytophthora megakarya* in Central and West Africa revealed by isozyme and RAPD markers 1225

***Phytophthora megasperma***
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119

***Phytophthora nicotianae***
Phenotypic and molecular characterization of species hybrids derived from the induced fusion of zoospores of *Phytophthora capsici* and *Phytophthora nicotianae* 1003

***Phytophthora quercina***
*Phytophthora quercina* sp. nov., causing root rot of European oaks 785
Molecular evidence supports *Phytophthora quercina* as a distinct species 799

***Phytophthora sojae***
Analysis of pathogenicity and genetic variation among *Phytophthora sojae* isolates using RAPD 173

**Phytotoxins**
Phytotoxicity of equisetin and *epi*-equisetin isolated from *Fusarium equiseti* and *F. pallidoroseum* 967

**Pigments**
*Sarcodon imbricatus* and *S. squamosus* - two confused species 1447

***Pilophorus acicularis***
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131

***Pisolithus arhizus***
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449

***Pisolithus tinctorius***
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
Intra- and interspecific variation in patterns of organic and inorganic nitrogen utilization by three Australian *Pisolithus* species 1579

***Plasmopara viticola***
A cytological and ultrastructural study on the maturation and germination of oospores of *Plasmopara viticola* from overwintering vine leaves 193

***Plasmoparopsis***
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591

***Pleospora gaudefroyi***
Observations on the biology and ultrastructure of the asci and ascospores of *Julella avicenniae* from Malaysia 865

***Pleurotus pulmonarius***
Conventional histological stains selectively stain fruit body initials of basidiomycetes 315

**Pneumocandin**
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179

**Poly (L-malate)**
Comparative synthesis and hydrolytic degradation of poly (L-malate) by myxomycetes and fungi 513

**Polycyclic aromatic hydrocarbons**
Conversion rates of five polycyclic aromatic hydrocarbons in liquid cultures of fifty-eight fungi and the concomitant production of oxidative enzymes 1009

**Polygalacturonase production**
Purification and characterisation of a prominent polygalacturonase isozyme produced by *Phomopsis cucurbitae* in decayed muskmelon fruit 21

**Polymerase chain reaction**
Polymerase chain reaction-based assay for specific detection of *Rhizoctonia solani* AG-3 isolates 1
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542
*MYCDIRE*, a dispersed repetitive DNA element in arbuscular mycorrhizal fungi 572
An integrated study of individualism in *Lentinula edodes* in nature and its implication for cultivation strategy 651
Infraspecific genetic diversity and substrate preference in the aquatic hyphomycete *Tetrachaetum elegans* 736
PCR-based identification and phylogeny of species of *Ceratocystis sensu stricto* 743
Molecular evidence supports *Phytophthora quercina* as a distinct species 799
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
Molecular evidence for the presence of *Ophiosphaerella narmari* n. comb., a cause of spring dead spot of Bermuda grass, in North America 981
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
Phenotypic and molecular characterization of species hybrids derived from the induced fusion of zoospores of *Phytophthora capsici* and *Phytophthora nicotianae* 1003
Phylogenetic relationships of *Meliola* and *Meliolina* inferred from nuclear small subunit rRNA sequences 1049
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
Molecular and biochemical evidence for manganese-dependent peroxidase activity in *Tylospora fibrillosa* 1098
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131
Development of reliable molecular markers to detect non-pathogenic binucleate *Rhizoctonia* isolates (AG-G) using PCR 1165
RAPD-PCR polymorphism and vegetative compatibility group variation in Spanish isolates of *Acremonium cucurbitacearum* 1173
Relationship of *Scedosporium prolificans* with *Petriella* confirmed by partial LSU rDNA sequences 1179
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185
Potential verification of a host plant for the desert truffle *Terfezia pfeilii* by molecular methods 1270
A new species of *Melanospora* from Easter Island 1305
*Rhizomucor tauricus*: a questionable species of the genus 1318
Segregation of genotypically diverse progeny from self-fertilised haploids of the Chinese straw mushroom, *Volvariella volvacea* 1335
The generation of specific DNA primers using random amplified polymorphic DNA and its application to *Verticillium dahliae* 1361
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
Transcriptional regulation of laccase and cellulase genes in the mycelium of *Agaricus bisporus* during fruit body development on a solid substrate 1557
Investigation of a PCR-based method for the routine identification of British *Armillaria* species 1631

**Polymers**
Comparative synthesis and hydrolytic degradation of poly (L-malate) by myxomycetes and fungi 513

**Polymorphism**
Ribosomal DNA polymorphism in *Colletotrichum lindemuthianum* 841

**Polyols**
Osmotic and matric potential effects on growth, sclerotia and partitioning of polyols and sugars in colonies and spores of *Aspergillus ochraceus* 141

**Polyphosphates**
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
**Population structure**
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449
Population and phylogenetic structure within the *Agaricus subfloccosus* complex 1515
***Postia***
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
***Prathigada backmanii***
Some *Pseudocercospora* species and a new *Prathigada* species from the Brazilian cerrado 1203
**Preservatives**
Fungitoxicity of oxine and copper oxinate: activity spectrum, development of resistance and synergy 1073
Fungitoxicity of oxine and copper oxinate: effects of pH, metals and chelating agents on activity 1085
**Primordial initiation**
Properties of the blue light requirements for primordia initiation and basidocarp maturation in *Coprinus stercorarius* 779
***Proboscispora aquatica***
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81
**Proteolytic enzymes**
Temperature regulation of extracellular proteases in ectomycorrhizal fungi (*Hebeloma* spp.) grown in axenic culture 707
**Protoplast production**
Azygospore formation following protoplast fusion in *Choanephora cucurbitarum* 684
**Protoplast regeneration**
Azygospore formation following protoplast fusion in *Choanephora cucurbitarum* 684
**Protoplasts**
Transformation of sapstaining fungi with hygromycin B resistance plasmids pAN7-1 and pCB1004 77
**Protostelids**
Protostelids, dictyostelids, and myxomycetes in the litter microhabitat of the Luquillo Experimental Forest, Puerto Rico 209
***Pseudallescheria***
Relationship of *Scedosporium prolificans* with *Petriella* confirmed by partial LSU rDNA sequences 1179
***Pseudocercospora aestiva***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
***Pseudocercospora agharkarii***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Pseudocercospora bolkanii***
Some *Pseudocercospora* species and a new *Prathigada* species from the Brazilian cerrado 1203
***Pseudocercospora curatellae***
Some *Pseudocercospora* species and a new *Prathigada* species from the Brazilian cerrado 1203
***Pseudocercospora luzardii***
Some *Pseudocercospora* species and a new *Prathigada* species from the Brazilian cerrado 1203
***Pseudocercospora myrtacearum***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Pseudocercospora myrticola***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Pseudocercospora psidii***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Pseudocercospora sawadae***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Pseudocercospora syzygii-cumini***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Pseudocercospora xenosyzigicola***
Species of *Mycosphaerella* and related anamorphs occurring on Myrtaceae (excluding *Eucalyptus*) 607
***Pseudocercospora zeyheriae***
*Pseudocercospora zeyheriae*, a new combination for *Cercospora zeyrae* 40
***Pseudocercosporella***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
***Pseudohendersonia proteae***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Puccinia menthae***
Morphological and molecular variation between Australian isolates of *Puccinia menthae* 1505
***Puccinia recondita***
Evidence for somatic hybridization in nature in *Puccinia recondita* f.sp. *tritici*, the leaf rust pathogen of wheat 715
***Pustulipora corticola***
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938
**Pycnidiospore germination**
The pycnidiospore of *Phyllosticta ampelicida*: surface properties involved in substratum attachment and germination 915
***Pycnoporus sanguineus***
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
***Pyrenophora teres* f. *maculata***
*Pyrenophora teres* f. *maculata*, the cause of Pyrenophora leaf spot of barley in South Africa 257
***Pythiogeton***
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
**Pythiogetonaceae**
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
***Pythium***
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
***Ramulispora***
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
**Random amplified polymorphic DNA**
Analysis of pathogenicity and genetic variation among *Phytophthora sojae* isolates using RAPD 173
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179
Morphological and molecular analysis of *Colletotrichum acutatum sensu lato* 275
DNA polymorphism and host range in the take-all fungus, *Gaeumannomyces graminis* 319
Genetic diversity in Finland of the birch endophyte *Gnomonia setacea* as determined by RAPD-PCR markers 328
RAPD-PCR, isozyme, rDNA RFLP and rDNA sequence analysis in identification of Finnish *Fusarium oxysporum* isolates 625
Evidence for somatic hybridization in nature in *Puccinia recondita* f.sp. *tritici*, the leaf rust pathogen of wheat 715
Infraspecific genetic diversity and substrate preference in the aquatic hyphomycete *Tetrachaetum elegans* 736
Phenotypic and molecular characterization of species hybrids derived from the induced fusion of zoospores of *Phytophthora capsici* and *Phytophthora nicotianae* 1003
*Claviceps* sp. PRL 1980 (ATCC 26245), 59 and Pepty 695/ch-I: their true story 1044
RAPD-PCR polymorphism and vegetative compatibility group variation in Spanish isolates of *Acremonium cucurbitacearum* 1173
RAPD marker and isozyme characterization of *Sphaeropsis sapinea* from diverse coniferous hosts and locations 1193
Diversity of *Phytophthora megakarya* in Central and West Africa revealed by isozyme and RAPD markers 1225
The generation of specific DNA primers using random amplified polymorphic DNA and its application to *Verticillium dahliae* 1361
Molecular genotype analysis of natural toxigenic and nontoxigenic isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 1485
Morphological and molecular variation between Australian isolates of *Puccinia menthae* 1505
**rDNA**
A new species of *Emericella* and a rare morphological variant of *E. quadrilineata* 1057
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119

The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131

**Restriction fragment length polymorphism**
*Macowanites messapicoides*, a hypogeous relative of *Russula messapica* 203
DNA polymorphism and host range in the take-all fungus, *Gaeumannomyces graminis* 319
Molecular characterization of *Colletotrichum* strains derived from strawberry 385
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449
RAPD-PCR, isozyme, rDNA RFLP and rDNA sequence analysis in identification of Finnish *Fusarium oxysporum* isolates 625
PCR-based identification and phylogeny of species of *Ceratocystis sensu stricto* 743
Molecular evidence supports *Phytophthora quercina* as a distinct species 799
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
Potential verification of a host plant for the desert truffle *Terfezia pfeilii* by molecular methods 1270
*Rhizomucor tauricus*: a questionable species of the genus 1318
Population and phylogenetic structure within the *Agaricus subfloccosus* complex 1515

***Reticulosphaeria***
Studies on Amphisphaeriales: The Cainiaceae 1621

**Review**
War in the world of lichens: parasitism and symbiosis as exemplified by lichens and lichenicolous fungi 641

***Rhizoctonia solani***
Polymerase chain reaction-based assay for specific detection of *Rhizoctonia solani* AG-3 isolates 1
Quantification of the effect of the hyperparasite *Trichoderma harzianum* on the saprotrophic growth dynamics of *Rhizoctonia solani* in compost using a monoclonal antibody-based ELISA 443
Microscopic observation of perfect hyphal fusion in *Rhizoctonia solani* 487
Cell wall alterations in hypocotyls of bean seedlings protected from Rhizoctonia stem canker by a binucleate *Rhizoctonia* isolate 1035
Development of reliable molecular markers to detect non-pathogenic binucleate *Rhizoctonia* isolates (AG-G) using PCR 1165
Evidence for segregation of somatic incompatibility during hyphal tip subculture of *Rhizoctonia solani* AG 4 1323

***Rhizomucor michei***
*Rhizomucor tauricus*: a questionable species of the genus 1318

***Rhizomucor pusillus***
*Rhizomucor tauricus*: a questionable species of the genus 1318

***Rhizomucor tauricus***
*Rhizomucor tauricus*: a questionable species of the genus 1318

***Rhizophagus tenuis***
Morphology and infectivity of fine endophyte in a mediterranean environment 1369

**Rhizosphere**
*Coemansia* species from the rhizospheres of wheat and barley in the United Kingdom 896
Effects of nutritional sources on growth of one non-pathogenic strain and four strains of *Fusarium oxysporum* pathogenic on tomato 1210

**Ribosomal DNA**
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542
RAPD-PCR, isozyme, rDNA RFLP and rDNA sequence analysis in identification of Finnish *Fusarium oxysporum* isolates 625
Ribosomal DNA polymorphism in *Colletotrichum lindemuthianum* 841
Phylogenetic analysis of nucleotide sequences from the ITS region of terverticillate *Penicillium* species 873
Molecular evidence for the presence of *Ophiosphaerella narmari* n. comb., a cause of spring dead spot of Bermuda grass, in North America 981
Grouping of lignin degrading corticioid fungi based on RFLP analysis of 18S rDNA and ITS regions 990
A multi-gene study of the phylogenetic relationships of the Parmeliaceae 1185
Intraspecific comparisons of *Laetiporus sulphureus* isolates from broadleaf and coniferous trees in Europe 1245
A new species of *Melanospora* from Easter Island 1305
*Sarcodon imbricatus* and *S. squamosus* - two confused species 1447
Phylogenetic relationships among some cercosporoid anamorphs of *Mycosphaerella* based on rDNA sequence analysis 1491
Morphological and molecular variation between Australian isolates of *Puccinia menthae* 1505
Phylogenetic relationships within and between *Epichloë* and *Neotyphodium* endophytes as estimated by AFLP markers and rDNA sequences 1593

**Ribosomal RNA**
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
Relatedness of *Custingophora olivaceae* to *Gondwanamyces* spp. from *Protea* spp. 497
Phylogenetic relationships of *Meliola* and *Meliolina* inferred from nuclear small subunit rRNA sequences 1049
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616

***Rivulicola***
*Proboscispora aquatica* gen. et sp. nov., from wood submerged in freshwater 81

**RNA**
Quantification of β-tubulin RNA expression during asymbiotic and symbiotic development of the arbuscular mycorrhizal fungus *Glomus mosseae* 360

**Root rots**
*Phytophthora quercina* sp. nov., causing root rot of European oaks 785

***Russula messapica***
*Macowanites messapicoides*, a hypogeous relative of *Russula messapica* 203

***Russula ochroleuca***
Ectomycorrhizal community structure in a limed spruce forest 501

**Rust fungi**
Hybridization in larch-alternating *Melampsora epitea* (*M. larici-epitea*) 1440

***Saccharomyces cerevisiae***
*MYCDIRE*, a dispersed repetitive DNA element in arbuscular mycorrhizal fungi 572

***Saprolegnia diclina***
*Saprolegnia diclina* isolated from pond cultured red drum (*Sciaenops ocellatus*) in Hong Kong 701

***Saprolegnia ferax***
Cytoplasmic migrations and vacuolation are associated with growth recovery in hyphae of *Saprolegnia*, and are dependent on the cytoskeleton 849

**Saprotrophs**
Utilization of inorganic and organic nitrogen in pure cultures by saprotrophic and ectomycorrhizal fungi producing sporophores on urea-treated forest floor 811

***Sarcodon imbricatus***
*Sarcodon imbricatus* and *S. squamosus* - two confused species 1447

***Sarcodon squamosus***
*Sarcodon imbricatus* and *S. squamosus* - two confused species 1447

***Savoryella lignicola***
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696

**Scanning electron microscopy**
Release and visualization of the extracellular matrix of conidia of *Blumeria graminis* 547
Morphological and molecular variation between Australian isolates of *Puccinia menthae* 1505

***Scedosporium prolificans***
Relationship of *Scedosporium prolificans* with *Petriella* confirmed by partial LSU rDNA sequences 1179

***Schizophyllum commune***
Hydrophobins line air channels in fruiting bodies of *Schizophyllum commune* and *Agaricus bisporus* 635
Atypical interactions between *thn* and wild-type mycelia of *Schizophyllum commune* 1540

***Scleroderma areolatum***
The formation of spores by metamorphosed basidia in *Mycocalia* and *Scleroderma* 521

***Scleroderma citrinum***
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449

***Scleroderma columnare***
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449

***Scleroderma sinnamariense***
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449

***Scleroderma verrucosum***
Species and population structures of *Pisolithus* and *Scleroderma* identified by combined phenotypic and genomic marker analysis 449

The formation of spores by metamorphosed basidia in *Mycocalia* and *Scleroderma* 521
Growth characteristics, nitrogen uptake and enzyme activities of the nitrate-utilising ectomycorrhizal *Scleroderma verrucosum* 997
***Sclerostagnospora leucadendri***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
**Sclerotial formation**
Osmotic and matric potential effects on growth, sclerotia and partitioning of polyols and sugars in colonies and spores of *Aspergillus ochraceus* 141
***Sclerotium orobanches***
Fungi on *Epifagus Crocicreas epifagicola* sp. nov., with comments on the generic names *Crocicreas* and *Cyathicula* 28
***Scutellospora castanea***
*MYCDIRE*, a dispersed repetitive DNA element in arbuscular mycorrhizal fungi 572
***Scutellospora heterogama***
*Scutellospora rubra*, a new arbuscular mycorrhizal species from Brazil 949
***Scutellospora rubra***
*Scutellospora rubra*, a new arbuscular mycorrhizal species from Brazil 949
***Scytalidium vaccinii***
*Hymenoscyphus ericae*: a new record from western Canada 1391
**Secondary metabolites**
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
The endophyte-host interaction: a balanced antagonism 1275
**Segregation of markers**
Segregation of genotypically diverse progeny from self-fertilised haploids of the Chinese straw mushroom, *Volvariella volvacea* 1335
***Septoria apiicola***
Stereological analysis of celery leaves infected by *Septoria apiicola* 750
***Septoria nodorum***
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
***Skeletocutis***
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
**Soil fungi**
Detection and estimation of conidial abundance of *Penicillium verrucosum* in soil by dilution plating on a selective and diagnostic agar medium (DYSG) 887
*Coemansia* species from the rhizospheres of wheat and barley in the United Kingdom 896
A resource-saving method for isolation of *Fusarium* and other fungi from individual soil particles 1545
**Somatic compatibility**
Evidence for somatic hybridization in nature in *Puccinia recondita* f.sp. *tritici*, the leaf rust pathogen of wheat 715
Somatic compatibility in *Amylostereum areolatum* and *A. chailletii* as a consequence of symbiosis with siricid woodwasps 817
Vegetative compatibility groups of *Amylostereum areolatum* and *A. chailletii* from Sweden and Lithuania 824
Vegetative compatibility in the entomopathogen *Verticillium lecanii* 833
Evidence for segregation of somatic incompatibility during hyphal tip subculture of *Rhizoctonia solani* AG 4 1323
**Sooty moulds**
Numerical taxonomy of the sooty moulds *Leptoxyphium*, *Caldariomyces* and *Aithaloderma* based on micromorphology and physiology 333
***Sphaerellopsis filum***
Pathogenicity to willow rust, *Melampsora epitea*, of the mycoparasite *Sphaerellopsis filum* from different sources 509
***Sphaerophorus globosus***
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131
***Sphaeropsis malorum***
The potential importance of diversity in *Eutypa lata* and co-colonising fungi in explaining variation in development of grapevine dieback 1385
***Sphaeropsis sapinea***
RAPD marker and isozyme characterization of *Sphaeropsis sapinea* from diverse coniferous hosts and locations 1193
**Spoilage**
Variation in chemical composition and quality of tea (*Camellia sinensis*) with increasing blister blight (*Exobasidium vexans*) severity 1380
***Spongipellis***
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
**Spore germination**
Morphological variation of *Peridermium pini* and *Cronartium flaccidum* aeciospores 677
The adenyl cyclase from dormant spores of *Phycomyces blakesleeanus* is a Type I-like enzyme 943
**Spore ultrastructure**
Taxonomy of *Ganoderma* from southern South America: subgenus *Ganoderma* 661
***Sporisorium everhartii***
New and poorly known smut fungi in Cuba 459
***Sporisorium loudetiae-pedicellatae***
Unusual teliospore germination in *Ustilago triodiae* and *Sporisorium loudetiae-pedicellatae* 137
***Sporisorium microsporum***
New and poorly known smut fungi in Cuba 459
***Sporisorium panici-leucophaei***
New and poorly known smut fungi in Cuba 459
***Sporormia***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
***Sporormiella***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
***Sporothrix***
Phylogenetic relationships of ophiostomatoid fungi associated with *Protea* infructescences in South Africa 1616
**Sporulation**
The influence of substrate and temperature on the sporulation of *Fusarium avenaceum* and its virulence on marsh reed grass 1145
***Stagonospora nodorum***
Tetrad analysis of mating type, mutations, esterase and aggressiveness in *Phaeosphaeria nodorum* 43
**Staining procedures**
Assessment of the activity of filamentous fungi using Mag fura 757
***Stenella cassiicola***
Further additions to *Stenella* from India and Nepal 268
***Stenella eugeniicola***
Further additions to *Stenella* from India and Nepal 268
***Stenella rhododendricola***
Further additions to *Stenella* from India and Nepal 268
***Stereocaulon ramulosum***
The phylogenetic relationship of the Sphaerophoraceae, *Austropeltum* and *Neophyllis* (lichenized Ascomycetes) inferred by SSU rDNA sequences 1131
***Stigmina***
*Batcheloromyces* species occurring on Proteaceae in South Africa 1478
**Subtilisins**
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
**Succession**
Succession of microfungal communities on *Myrtus communis* leaf litter in a Sardinian Mediterranean maquis ecosystem 724
***Suillus bovinus***
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
**Symbiosis**
Somatic compatibility in *Amylostereum areolatum* and *A. chailletii* as a consequence of symbiosis with siricid woodwasps 817
***Symbiotaphrina***
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542
**Synnema formation**
*Acarocybiopsis*, a new genus of synnematous hyphomycetes from Cuba 1032
**Systematics**
Two types of basidia in *Urocystis hypoxis* and the implications for smut taxonomy 18
Studies on Amphisphaeriales: The Amphisphaeriaceae (*sensu stricto*) 53
Notes on *Tulostoma volvulatum* and *T. giovanellae* 91
Relatedness of *Custingophora olivaceae* to *Gondwanamyces* spp. from *Protea* spp. 497
Taxonomy of *Ganoderma* from southern South America: subgenus *Ganoderma* 661
Systematic relationship of several controversial *Cunninghamella* taxa inferred from sequence comparisons of ITS2 of rDNA 805
18S rDNA for species of *Leptolegnia* and other Peronosporomycetes: justification for the subclass taxa Saprolegniomycetidae and Peronosporomycetidae and division of the Saprolegniaceae *sensu lato* into the Leptolegniaceae and Saprolegniaceae 1119

**Taxonomy**
Treading the fine line between small-statured *Gymnopilus* and excentrically stipitate *Galerina* species in Australia 427
Taxonomy of the *Penicillium miczynskii* group based on morphology and secondary metabolites 527
Polyphyletic origins of yeast-like endocytobionts from anobiid and cerambycid beetles 542
Taxonomy of *Ganoderma* from southern South America: subgenus *Elfvingia* 1289
**Teliospore germination**
Unusual teliospore germination in *Ustilago triodiae* and *Sporisorium loudetiae-pedicellatae* 137
The *Cintractia* pattern of teliospore germination 1071
**Tellurite metabolism**
Transformation and tolerance of tellurite by filamentous fungi: accumulation, reduction, and volatilization 299
**TEM**
Immunogold localization of an extracellular β-1,3-glucanase of the ergot fungus *Claviceps purpurea* during infection of rye 1103
Ultrastructure of the dimorphic ascospores in *Mamillisphaeria dimorphospora* 1284
**Temperature**
Effect of dew point temperature and conidium age on germination, germ tube growth and infection of maize and sorghum by *Peronosclerospora sorghi* 859
The influence of substrate and temperature on the sporulation of *Fusarium avenaceum* and its virulence on marsh reed grass 1145
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
***Terfezia pfeilii***
Potential verification of a host plant for the desert truffle *Terfezia pfeilii* by molecular methods 1270
***Tetrachaetum elegans***
Infraspecific genetic diversity and substrate preference in the aquatic hyphomycete *Tetrachaetum elegans* 736
***Thanatephorus cucumeris***
Polymerase chain reaction-based assay for specific detection of *Rhizoctonia solani* AG-3 isolates 1
**Thatched roofs**
The macrofungi and decay of roofs thatched with water reed, *Phragmites australis* 1346
***Thelephora terrestris***
Ectomycorrhizal community structure in a limed spruce forest 501
***Thysanophora penicillioides***
Proportion of needles colonized by one fungal species in coniferous litter: the dispersal hypothesis 353
***Trametes***
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
***Trametes versicolor***
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
**Transformation**
Transformation of sapstaining fungi with hygromycin B resistance plasmids pAN7-1 and pCB1004 77
GUS transformation of the maize fungal endophyte *Fusarium moniliforme* 129
Co-transformation of the sclerotial mycoparasite *Coniothyrium minitans* with hygromycin B resistance and β-glucuronidase markers 929
***Trematosphaeria mangrovei***
Extracellular cellulolytic enzyme profiles of five lignicolous mangrove fungi 696
***Trichocladium englandense***
Fungi on submerged wood from the River Coln, England 1561
***Trichocladium nypae***
Eleven new intertidal fungi from *Nypa fruticans* 1409
***Trichoderma harzianum***
Delineation of *Trichoderma harzianum* into two different genotypic groups by a highly robust fingerprinting method, UP-PCR, and UP-PCR product cross-hybridization 289
Quantification of the effect of the hyperparasite *Trichoderma harzianum* on the saprotrophic growth dynamics of *Rhizoctonia solani* in compost using a monoclonal antibody-based ELISA 443
G protein activators and cAMP promote mycoparasitic behaviour in *Trichoderma harzianum* 1637
***Tricholoma matsutake***
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403
***Trichophyton rubrum***
A modified AATCC 30-1993 method to test fungicide treated fabrics against dermatophytes 88
**Trichothecenes**
Physiological characteristics and mycotoxins of human clinical isolates of *Fusarium* species 1462
***Trimmatostroma protearum***
Systematics of selected foliicolous fungi associated with leaf spots of Proteaceae 1299
***Tuber***
Glutathione dependent enzymes and antioxidant defences in truffles: organisms living in microaerobic environments 1643
***Tuber borchii***
Strain differences in the mycelium of the ectomycorrhizal *Tuber borchii* 1524
***Tuber magnatum***
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403
***Tuber melanosporum***
A comparison of immunological assays for the identification of *Tuber* spp. and other edible ectomycorrhizal fungi 403
***Tulostoma giovanellae***
Notes on *Tulostoma volvulatum* and *T. giovanellae* 91
***Tulostoma kansense***
Notes on *Tulostoma volvulatum* and *T. giovanellae* 91
***Tulostoma obesum***
Notes on *Tulostoma volvulatum* and *T. giovanellae* 91
***Tulostoma volvulatum***
Notes on *Tulostoma volvulatum* and *T. giovanellae* 91
**Turgor pressure**
On the origin and functions of hyphal walls and turgor pressure 1360
***Turturconchata reticulata***
*Turturconchata*, a new genus of hyphomycetes from Taiwan 830
***Tylopilus felleus***
Ectomycorrhizal community structure in a limed spruce forest 501
***Tylospora fibrillosa***
Ectomycorrhizal community structure in a limed spruce forest 501
Molecular and biochemical evidence for manganese-dependent peroxidase activity in *Tylospora fibrillosa* 1098
***Tyromyces***
Application of ITS (nrDNA) sequences in the phylogenetic study of *Tyromyces s.l.* 219
***Tyromyces formosanus***
*Ceriporiopsis microporus* and *Tyromyces formosanus*, two new polypore species from Taiwan 674
**Tyrosinase**
Tyrosinase activity and isoform composition in separate tissues during development of *Agaricus bisporus* fruit bodies 413
**Ultrastructure**
A cytological and ultrastructural study on the maturation and germination of oospores of *Plasmopara viticola* from overwintering vine leaves 193
Ultrastructural studies on the Myelospermaceae fam. nov., with a new species of Myelosperma 347
Ultrastructural studies on the aquatic ascomycetes *Annulatascus velatisporus* and *A. triseptatus* sp. nov. 561
Taxonomy and oogonial ultrastructure of a new aero-aquatic peronosporomycete, *Medusoides* gen. nov. (Pythiogetonaceae fam. nov.) 591
Lignicolous freshwater Ascomycota from Thailand: *Micropeltopsis quinquecladiopsis* sp. nov. 729
Observations on the biology and ultrastructure of the asci and ascospores of *Julella avicenniae* from Malaysia 865
Ultrastructure of the dimorphic ascospores in *Mamillisphaeria dimorphospora* 1284
**Ultraviolet irradiation**
Variation in the responses of litter and phylloplane fungi to UV-B radiation (290–315 nm) 1469
***Urocystis hypoxis***
Two types of basidia in *Urocystis hypoxis* and the implications for smut taxonomy 18
***Ustilago triodiae***
Unusual teliospore germination in *Ustilago triodiae* and *Sporisorium loudetiae-pedicellatae* 137
**Vacuolation**
Cytoplasmic migrations and vacuolation are associated with growth recovery in hyphae of *Saprolegnia*, and are dependent on the cytoskeleton 849
***Vanderbylia***
*Antrodia taxa* sp. nov. and *Perenniporia celtis* sp. nov. in Taiwan 622

**Vascular pathogens**
A re-examination of the vascular wilt pathogen of takamaka (*Calophyllum inophyllum*) 1588
***Venturia***
Small subunit ribosomal RNA gene phylogeny of several loculoascomycetes and its taxonomic implications 153
***Venturia inaequalis***
Resistance of *Venturia inaequalis* to the sterol biosynthesis-inhibiting fungicide, penconazole 1157
***Verticillium***
The subtilisins of fungal pathogens of insects, nematodes and plants: distribution and variation 395
***Verticillium albo-atrum***
The generation of specific DNA primers using random amplified polymorphic DNA and its application to *Verticillium dahliae* 1361
***Verticillium calophylli***
A re-examination of the vascular wilt pathogen of takamaka (*Calophyllum inophyllum*) 1588
***Verticillium dahliae***
Vegetative compatibility grouping in *Verticillium nigrescens* and *V. tricorpus* 65
The generation of specific DNA primers using random amplified polymorphic DNA and its application to *Verticillium dahliae* 1361
***Verticillium lecanii***
Vegetative compatibility in the entomopathogen *Verticillium lecanii* 833
***Verticillium nigrescens***
Vegetative compatibility grouping in *Verticillium nigrescens* and *V. tricorpus* 65
***Verticillium psalliotae***
Mycoparasitism of *Coemansia* species 925
***Verticillium tricorpus***
Vegetative compatibility grouping in *Verticillium nigrescens* and *V. tricorpus* 65
**Viability**
Assessment of the activity of filamentous fungi using Mag fura 757
***Vibrissea nypicola***
Eleven new intertidal fungi from *Nypa fruticans* 1409
**Virulence**
Evidence for somatic hybridization in nature in *Puccinia recondita* f.sp. *tritici*, the leaf rust pathogen of wheat 715
The influence of substrate and temperature on the sporulation of *Fusarium avenaceum* and its virulence on marsh reed grass 1145
***Volvariella volvacea***
Segregation of genotypically diverse progeny from self-fertilised haploids of the Chinese straw mushroom, *Volvariella volvacea* 1335
**Wall function**
On the origin and functions of hyphal walls and turgor pressure 1360
**Water potential**
Osmotic and matric potential effects on growth, sclerotia and partitioning of polyols and sugars in colonies and spores of *Aspergillus ochraceus* 141
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
***Wawelia argentea***
*Wawelia argentia* and *W. microspora*, two new species of xerophilous fungi on rabbit and hare dung in Britain 1604
***Wawelia microspora***
*Wawelia argentia* and *W. microspora*, two new species of xerophilous fungi on rabbit and hare dung in Britain 1604
**Wood decay fungi**
Fruiting inducing activity amongst isolates and single spore progeny of *Phellinus contiguus*, other species of *Phellinus* and certain other wood-rotting fungi 482
Temperature and water potential relations of tropical *Trametes* and other wood-decay fungi from the indigenous forests of Zimbabwe 1309
Investigation of the extracellular mucilaginous materials produced by some wood decay fungi 1453
**Xerophytes**
The autecology of *Battarrea stevenii* in ephemeral rivers of southwestern Africa 9
*Wawelia argentia* and *W. microspora*, two new species of xerophilous fungi on rabbit and hare dung in Britain 1604
**X-ray microanalysis**
Elemental composition and function of polyphosphates in ectomycorrizal fungi – an X-ray microanalytical study 31
***Xylaria***
Mycobiota in symptomless needles of *Pinus mugo* ssp. *uncinata* 306
**Xyloglucan**
Effect of xyloglucan and xyloglucanase activity on the development of the arbuscular mycorrhizal *Glomus mosseae* 882
***Zalerion arboricola***
Reclassification of a pneumocandin-producing anamorph, *Glarea lozoyensis* gen. et sp. nov., previously identified as *Zalerion arboricola* 179
***Zopfia rhizophila***
*Ascomauritiana lignicola* gen. et sp. nov., an ascomycete from submerged wood in Mauritius 938
